CHAPTER 51. PROVISIONS GENERALLY APPLICABLE TO HIGHER EDUCATION

SUBCHAPTER A. CONTROL OF FUNDS

Sec. 51.001. INSTITUTIONS TO WHICH APPLICABLE. The provisions of this subchapter apply to each institution of higher education, as that term is defined by Section 61.003 of this code, including each public junior college to the extent possible.

Sec. 51.002. FUNDS SUBJECT TO CONTROL. (a) The governing board of each institution listed in Section 51.001 of this code may retain control of the following sums of money collected at the institution, subject to Section 51.008 of this code:

(1) student fees of all kinds;
(2) charges for use of rooms and dormitories;
(3) receipts from meals, cafes, and cafeterias;
(4) fees on deposit refundable to students under certain conditions;
(5) receipts from school athletic activities;
(6) income from student publications and other student activities;
(7) receipts from the sale of publication products and miscellaneous supplies and equipment;
(8) students' voluntary deposits of money for safekeeping;
(9) all other fees and local or institutional funds arising out of and by virtue of the educational activities, research, or demonstrations carried on by the institution; and
(10) donations and gifts to the institution.

(b) The provisions of this subchapter do not apply to any income derived from the permanent university fund.

Sec. 51.003. DEPOSITORIES. (a) The governing board of each institution may select one or more depositories as places of deposit for the funds enumerated in Section 51.002 of this code. Depositories shall be selected on the basis of competitive bids. If bids are taken orally, the bids shall be tabulated by the person taking the bids and made a part of the permanent records of the institution.

(b) The funds shall either be deposited in the depository bank or banks or invested as authorized by Chapter 2256, Government Code (Public Funds Investment Act). Funds that are to be deposited in the depository bank or banks must be deposited within seven days from the date of receipt by the institution.

(c) The governing board shall require adequate surety bonds or securities to be posted to secure the deposits and may require additional security at any time it deems the deposits inadequately secured. The depository banks selected may pledge their securities to protect the funds.

(d) A depository shall pay interest on the deposits at a rate agreed on by the depository and the governing board.

(e) Any surety bond furnished under the provisions of this section shall be payable to the governor and his successors in office. Venue for a suit to recover an amount claimed by the state to be due on a surety bond is in Travis County.

(f) Notwithstanding any other provision of this section, the governing board of each institution may maintain unsecured deposits in a foreign bank as necessary to support the institution's academic and research operations in the foreign country in which the bank is located, provided that no appropriated or tuition funds other than those collected from students enrolled in the affected programs are deposited. The foreign bank must:
(1) be licensed and supervised by a central bank;
(2) be audited annually by an accounting firm that follows international financial reporting standards; and
(3) maintain a capital to total assets ratio that is not less than the greater of four percent or the minimum tier 1 capital to total assets ratio required for depository institutions insured by the Federal Deposit Insurance Corporation.

Sec. 51.0031. DEPOSITS AND INVESTMENTS. (a) A governing board may deposit funds under its control as provided in Section 51.003 of this code, may invest funds under its control in accordance with Chapter 2256, Government Code and, with regard to donations, gifts, and trusts, may establish endowment funds that operate as trusts and are managed under prudent person standards.

(b) Funds described in this section may also be invested in cash management and fixed income funds held by organizations exempt from federal taxation under Section 501(f) of the Internal Revenue Code of 1986 (26 U.S.C. Section 501(f)), as that section may be amended.

(c) If a governing board has under its control at least $25 million in book value of endowment funds, such governing board may invest all funds described in this section under prudent person standards.

(c-1) If a governing board does not have under its control at least $25 million in book value of endowment funds, the governing board may contract to pool its funds described in this section with another institution that meets the $25 million in book value of endowment funds threshold established under Subsection (c), and have its funds invested by that governing board under prudent person standards.
(d) As used in this section, "prudent person standard" is the standard of care described in Article VII, Section 11b, of the Texas Constitution, and means that standard of judgment and care that prudent investors, exercising reasonable care, skill, and caution, would acquire or retain in light of the purposes, terms, distribution requirements, and other circumstances of the fund then prevailing, taking into consideration the investment of all the assets of the fund rather than a single investment.

Sec. A51.0032. INVESTMENT REPORTS AND POLICIES. (a) A governing board shall adopt by rule or resolution a written investment policy for the investment of its institutional funds.

(b) Not less than quarterly, an institution of higher education shall prepare and submit to the governing board of the institution a written report of the institution's institutional funds investment transactions for the preceding reporting period.

(c) In addition to other information that may be required by the governing board, the report must contain:

(1) a summary statement of each pooled fund group that states the beginning market value for the reporting period, additions and changes to the market value during the period, and the ending market value for the period; and

(2) the book value and market value of each separately invested asset at the beginning and end of the reporting period by type of asset and fund type invested.

(d) In this section:

(1) "Governing board" means a governing board described in Section 51.0031(c).

(2) "Institution of higher education" means an institution of higher education under the governance of a governing
board to which this section applies.

(3) "Pooled fund group" means an internally created fund of an institution of higher education in which one or more institutional accounts are invested.

(4) "Separately invested asset" means an account of an institution of higher education that is not invested in a pooled fund group.

Added by Acts 1995, 74th Leg., ch. 402, Sec. 4, eff. Sept. 1, 1995.

Sec. 51.004. SEPARATE ACCOUNTS; TRUST FUNDS; INTEREST.

(a) Separate accounts shall be kept on the books of the institution showing the sources of all sums collected and the purposes for which disbursements are made.

(b) All trust funds, including gifts, grants, and bequests received, establishing or adding to endowment funds, loan and scholarship funds, and funds for other current restricted purposes, shall be credited to separate accounts and shall not be commingled with other local or institutional funds.

(c) If the governing board so elects, deposits of all funds not specifically required to be deposited to special accounts may be deposited in a single bank account if the records of the institution clearly reflect the balances attributable to general funds and various categories of trust funds.

(d) Interest received from depository banks for funds on deposit may be credited to an appropriate account in either general funds or trust funds in relation to the sources of temporary investments in time deposits, if the disposition of the earnings was not specified by the grantor. Interest received from the trust funds time deposits shall be available for loans, scholarships, fellowships, institutional research, faculty aid, and other lawful purposes.

Sec. 51.005. REPORTS. Each institution of higher education shall prepare a complete annual financial report as prescribed by
Section 2101.011, Government Code.
Amended by:
Acts 2011, 82nd Leg., R.S., Ch. 1049 (S.B. 5), Sec. 1.02, eff. June 17, 2011.

Sec. 51.0051. ANNUAL OPERATING BUDGETS. The governing board of each institution shall approve on or before September 1 of each year an itemized budget covering the operation of the institution for the fiscal year beginning on September 1 of each year. The budget shall be prepared within the limits of legislatively appropriated general revenue and estimated educational and general funds. The budget shall also include estimated institutional funds. Copies of each such budget shall be furnished to the Texas Higher Education Coordinating Board for distribution to the Governor's Budget and Planning Office, Legislative Budget Board, and Legislative Reference Library. Additional copies shall be delivered to the Texas Higher Education Coordinating Board as required. The governing board of the institution shall retain five copies of the budget for distribution to legislators or other state officials on request.

Sec. 51.0052. REPORT TO SECRETARY OF STATE. (a) In this section, "colonia" means a geographic area that:
(1) is an economically distressed area as defined by Section 17.921, Water Code;
(2) is located in a county any part of which is within 62 miles of an international border; and
(3) consists of 11 or more dwellings that are located in close proximity to each other in an area that may be described as a community or neighborhood.

(b) To assist the secretary of state in preparing the report required under Section 405.021, Government Code, an institution of higher education on a quarterly basis shall provide a report to the secretary of state detailing any projects funded by the institution of higher education that provide assistance to colonias.

(c) The report must include:

1. a description of any relevant projects;
2. the location of each project;
3. the number of colonia residents served by each project;
4. the exact amount spent or the anticipated amount to be spent on each colonia served by each project;
5. a statement of whether each project is completed and, if not, the expected completion date of the project; and
6. any other information, as determined appropriate by the secretary of state.

(d) The institution of higher education shall require an applicant for funds administered by the institution to submit to the institution a colonia classification number, if one exists, for each colonia that may be served by the project proposed in the application. If a colonia does not have a classification number, the institution of higher education may contact the secretary of state or the secretary of state's representative to obtain the classification number. On request of the institution, the secretary of state or the secretary of state's representative shall assign a classification number to the colonia.

Sec. 51.006. FUNDS NOT TO BE USED TO INCREASE SALARIES. No part of any of the funds listed in Section 51.002 of this code shall ever be used to increase any salary beyond the sum fixed by the legislature in the general appropriations act; provided, however, that the use of such funds by an institution for this purpose may be
specifically authorized by the legislature in general law or the
general appropriations act.

1, 1971. Amended by Acts 1991, 72nd Leg., ch. 481, Sec. 4, eff. June
8, 1991.

Sec. 51.0065. APPLICABILITY OF ACROSS-THE-BOARD SALARY
INCREASE. An institution of higher education that has adopted a
pay-for-performance program that is in effect when an
across-the-board salary increase for state employees made by an
appropriation act of the legislature takes effect is entitled to
receive any appropriation made for purposes of the across-the-board
salary increase, and may use the amount appropriated for an
across-the-board salary increase or for increases in compensation
under the institution's pay-for-performance program.
Added by Acts 2003, 78th Leg., ch. 1266, Sec. 2.07, eff. June 20,
2003.

Sec. 51.007. PENALTY. Any state officer, agent, employee,
or member of a governing board of any of the above named
institutions, or any other person who violates any provision of
this subchapter shall be deemed guilty of a misdemeanor and shall be
punished by a fine of not less than $50 nor more than $500, and in
addition may be sentenced to not less than 15 days nor more than
three months in the county jail. Failure to print and furnish to
the officers above named, the reports above specified, shall
subject all of the members of the governing board of the
institutions above mentioned to the penalties provided for in this
section. Every day in excess of the number of days hereinabove
provided for that any sum of money belonging to any of the funds
enumerated in this subchapter, whether depositable in special
depositories or whether those that should be deposited in the state
treasury, shall be withheld from deposit at its proper place of
deposit, shall constitute a separate offense and each day of such
withholding shall subject the officer, agent, employee, or person
so withholding said sum to the penalties herein provided for.
Acts 1971, 62nd Leg., p. 3072, ch. 1024, art. 1, Sec. 1, eff. Sept.
Sec. 51.008. CERTAIN RECEIPTS TO BE DEPOSITED IN STATE TREASURY. (a) The governing board of every state institution of higher education is directed to designate special depository banks, subject to the approval of the comptroller, for the purpose of receiving and keeping certain receipts of the institution separate and apart from funds now deposited in the state treasury. The receipts here referred to are described in Subsection (b) of this section. The comptroller is directed to deposit the receipts, or funds representing such receipts, enumerated herein, in the special depository bank or banks nearest the institution credited with the receipts, so far as is practicable, and is authorized to withdraw such funds on drafts or checks prescribed by the comptroller. The comptroller is authorized to promulgate rules and regulations to require collateral security for the protection of such funds pursuant to the provisions of Chapter 404, Government Code. For the purpose of facilitating the clearance and collection of the receipts herein enumerated, the comptroller is hereby authorized to deposit such receipts in any state depository bank and transfer funds representing such receipts enumerated herein to the respective special depository banks. Banks so designated as special depository banks are hereby authorized to pledge their securities to protect such funds.

(b) The governing board of every state institution of higher education shall deposit in the state treasury all cash receipts accruing to any college or university under its control that may be derived from all sources except auxiliary enterprises, noninstructional services, agency, designated, and restricted funds, endowment and other gift funds, student loan funds, funds retained under Chapter 145 of this code, and Constitutional College Building Amendment funds. The comptroller is directed to credit such receipts deposited by each such institution to a separate fund account for the institution depositing the receipts, but he shall not be required to keep separate accounts of types of funds deposited by each institution. For the purpose of facilitating the transferring of such institutional receipts to the state treasury,
each institution shall open in a local depository bank a clearing account to which it shall deposit daily all such receipts, and shall, not less often than every seven days, make remittances therefrom to the comptroller of all except $500 of the total balance in said clearing account, such remittances to be in the form of checks drawn on the clearing account by the duly authorized officers of the institution, and no disbursements other than remittances to the state treasury shall be made from such clearing account. All money so deposited in the state treasury shall be paid out on warrants drawn by the comptroller as provided by law.

(c) The legislature is authorized to create revolving funds for the handling of funds of institutions of higher education, as enumerated herein, by making provision in each biennial appropriation bill enacted by the legislature.

(d) Nothing in this section affects the provisions of Title 47, Revised Civil Statutes of Texas, 1925, usually referred to as the State Depository Law. However, the limitation of deposits contained in Article 2532, Revised Civil Statutes of Texas, 1925, as amended, shall not apply insofar as the specific funds enumerated in this section are concerned.

(e) This section prevails over Sections 51.001-51.007 of this code to the extent of any conflict.

(f) Interest earned on the receipts deposited under this section to an institution's separate fund account in the state treasury shall be credited to that separate fund account.

(g) Revenues collected at institutions of higher education and deposited in the state treasury pursuant to this section and Section 34.017, Natural Resources Code, and the interest earned thereon, are dedicated to the institution which collected and deposited the funds irrespective of the year the funds were collected, deposited, or earned. These funds may be only used for the support, maintenance, and operation of the institution as provided for by law. Section 403.094(h), Government Code, does not apply to funds described in this section.

(h) Tuition revenues and revenue collected under Section 34.017, Natural Resources Code, that are deposited in the treasury pursuant to this section, and the interest earned on those
revenues, shall be treated as designated funds in the general revenue fund. Notwithstanding a pledge of those revenues made or to be made in the proceedings approved by the governing board of an institution of higher education authorizing the issuance or incurrence of bonds, the deposit of those revenues in the treasury to the credit of an account in the general revenue fund does not:

1. affect in any manner the pledge of the revenues or the governing board's ability to pledge the revenues to secure and pay bonds issued or incurred by the governing board in accordance with law;

2. cause the bonds to constitute a debt of the state or be payable from the full faith and credit of the state;

3. change the character of the revenues as separate revenue of the institution collecting the revenue; or

4. cause the revenue to be considered general revenue for purposes of Sections 17 and 18, Article VII, Texas Constitution.

Sec. 51.009. DEFINING AND ACCOUNTING FOR CERTAIN INCOME.

(a) "Local funds" are the items to be accounted for as "educational and general funds" as described in Subsection (c) of this section, but do not include general revenue funds. These funds shall be accounted for in a manner recommended by the National Association of College and University Business Officers and approved by the comptroller of public accounts and the Texas Higher Education Coordinating Board.

(b) "Institutional funds" means all funds collected at the institution that are not "educational and general funds" as described in Subsection (c) of this section. These funds shall be accounted for in a manner recommended by the National Association
of College and University Business Officers and approved by the comptroller of public accounts and the Texas Higher Education Coordinating Board.

(c) Each of the following shall be accounted for as educational and general funds:

(1) net tuition, special course fees charged under Sections 54.051(e) and (1), lab fees, student teaching fees, organized activity fees, and proceeds from the sale of educational and general equipment; and

(2) hospital and clinic fees received by a state-owned clinical care facility that is operated using general revenue fund appropriations for patient care.

Added by Acts 1987, 70th Leg., ch. 901, Sec. 36, eff. Aug. 31, 1987. Amended by Acts 1991, 72nd Leg., ch. 481, Sec. 5, eff. June 8, 1991. Amended by:

Acts 2005, 79th Leg., Ch. 1181 (S.B. 1227), Sec. 1, eff. September 1, 2005.

Acts 2007, 80th Leg., R.S., Ch. 1324 (S.B. 1446), Sec. 1, eff. June 15, 2007.

Sec. 51.010. COLLECTION OF DELINQUENT OBLIGATIONS. If under the rules adopted by the attorney general under Chapter 2107, Government Code, an institution of higher education is not required to refer a delinquent obligation for collection to the attorney general, the institution is not required to expend resources for further collection efforts if, considering the amount, security, likelihood of collection, expense, and available resources, the institution determines that further collection should not be actively pursued.

Added by Acts 2011, 82nd Leg., R.S., Ch. 1049 (S.B. 5), Sec. 1.02, eff. June 17, 2011.

Sec. 51.011. DISPOSITION OF SMALL CREDIT BALANCES. (a) This section applies to a credit balance of less than $25 held by an institution of higher education that is presumed abandoned under Chapter 72, Property Code.

(b) An institution of higher education may maintain an
unclaimed money fund and transfer to that fund a credit balance to which this section applies. A deposit to the unclaimed money fund does not affect the ownership of the amount deposited. The institution shall:

(1) adopt procedures for owners to make and receive payments of claims against the fund; and

(2) maintain a database that permits members of the public to search for ownership of unclaimed funds.

(c) The institution of higher education shall use the fund to pay the claims of persons establishing ownership of amounts transferred to the fund and shall hold and account for the unclaimed money fund as educational and general funds of the institution. If the fund balance is insufficient to pay a valid claim, the institution shall pay the claim from the institution's other educational and general funds.

(d) Each fiscal year, after deducting funds sufficient to pay anticipated expenses of and claims against the unclaimed money fund, the institution shall use the balance of the fund as other educational and general funds of the institution.

(e) In consultation with institutions of higher education, the comptroller by rule may establish minimum requirements for notice to owners of unclaimed money deposited in the unclaimed money fund and for charges for that notice. The rules may not provide stricter requirements than the comptroller applies for amounts of less than $25 in the custody of the comptroller under Chapter 74, Property Code.

(f) If an institution of higher education maintains an unclaimed money fund under this section, Chapter 74, Property Code, does not apply to a credit balance to which this section applies.

Added by Acts 2011, 82nd Leg., R.S., Ch. 1049 (S.B. 5), Sec. 1.02, eff. June 17, 2011.

Sec. 51.012. PAYMENTS BY ELECTRONIC FUNDS TRANSFER OR ELECTRONIC PAY CARD. An institution of higher education may make any payment through electronic funds transfer or by electronic pay card.

Added by Acts 2011, 82nd Leg., R.S., Ch. 1049 (S.B. 5), Sec. 1.02,
SUBCHAPTER C. FACULTY DEVELOPMENT LEAVES OF ABSENCE

Sec. 51.101. DEFINITIONS. In this subchapter:

(1) "Institution of higher education" has the meaning assigned to it in Section 61.003 of this code, except that Texas State Technical College System is included and the Rodent and Predatory Animal Control Service is excluded for the purposes of this subchapter.

(2) "Governing board" means the body charged with policy direction of an institution of higher education.

(3) "Faculty member" means a person who is employed by an institution of higher education on a full-time basis as a member of the faculty or staff and whose duties include teaching, research, administration, including professional librarians, or the performance of professional services. However, the term does not include a person employed in a position which is in the institution's classified personnel system or a person employed in a similar type of position if the institution does not have a classified personnel system.

Sec. 51.102. LEGISLATIVE FINDINGS AND PURPOSE. The legislature finds that higher education is vitally important to the welfare, if not the survival, of Texas and the United States at this stage in history and that the quality of higher education is dependent upon the quality of college and university faculties. The legislature finds, therefore, that money spent on recognized means for producing an excellent system of public higher education is money spent to serve a public purpose of great importance. The legislature finds further that a sound program of faculty development leaves of absence designed to enable the faculty member to engage in study, research, writing, and similar projects for the purpose of adding to the knowledge available to himself, his
students, his institution, and society generally is a well-recognized means for improving a state's program of public higher education. The legislature's purpose in establishing the faculty development leave program provided for by this subchapter is to improve further the higher education available to the youth at the state-supported colleges and universities and to establish this program of faculty development leaves as part of the plan of compensation for the faculty of these colleges and universities. Acts 1971, 62nd Leg., p. 3072, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 51.103. GRANTING LEAVES OF ABSENCE; PROCEDURES. (a) On the application of a faculty member, the governing board of an institution of higher education may grant a faculty development leave of absence for study, research, writing, field observations, or other suitable purpose, to a faculty member if it finds that he is eligible by reason of service, that the purpose for which he seeks a faculty development leave is one for which a faculty development leave may be granted, and that granting leave to him will not place on faculty development leave a greater number of faculty members than that authorized.

(b) The governing board by regulation shall establish a procedure whereby the applications for faculty development leaves of absence are received by a committee elected by the general faculty for evaluation and whereby this faculty committee then makes recommendations to the chief administrative officer of the institution of higher education, who shall then make recommendations to the governing board as to which applications should be granted. Acts 1971, 62nd Leg., p. 3072, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 51.104. SERVICE REQUIRED. A faculty member is eligible by reason of service to be considered for a faculty development leave when he has served as a member of the faculty of the same institution of higher education for at least two consecutive academic years. This service may be as an instructor or
as an assistant, associate, or full professor, or an equivalent rank, and must be full-time academic duty but need not include teaching.

Sec. 51.105. DURATION AND COMPENSATION. (a) The governing board may grant to a faculty member a faculty development leave either for one academic year at one-half of his regular salary or for one-half academic year at his full regular salary. Payment of salary to the faculty member on faculty development leave may be made from the funds appropriated by the legislature specifically for that purpose, or from such other funds as might be available to the institution.

(b) A faculty member on faculty development leave may accept a grant for study, research, or travel from any institution of higher education, from a charitable, religious, or educational corporation or foundation, from any business enterprise, or from any federal, state, or local governmental agency. An accounting of all grants shall be made to the governing board of the institution by the faculty member. A faculty member on faculty development leave may not accept employment from any other person, corporation, or government, unless the governing board determines that it would be in the public interest to do so and expressly approves the employment.

Sec. 51.106. NUMBER ON LEAVE AT ONE TIME. Not more than six percent of the faculty members of any institution of higher education may be on faculty development leave at any one time.

Sec. 51.107. RIGHTS RETAINED. (a) A faculty member on faculty development leave shall continue to be a member of the Teacher Retirement System of Texas or of the Optional Retirement Program of the institution of higher education, or of both, just as any other member of the faculty on full-time duty.

(b) The institution of higher education shall cause to be deducted from the compensation paid to a member of the faculty on faculty development leave the deposit and membership dues required to be paid by him to the Teacher Retirement System of Texas or to the Optional Retirement Program, or both, the contribution for Old Age and Survivors Insurance, and any other amounts required or authorized to be deducted from the compensation paid any faculty member.

(c) A member of the faculty on faculty development leave is a faculty member for purposes of participating in the programs and of receiving the benefits made available by or through the institution of higher education or the state to faculty members.

Sec. 51.108. REGULATIONS CONCERNING ABSENCE. (a) The governing board of each college or university supported in whole or in part by state funds shall issue regulations concerning the authorized and unauthorized absence from duty of faculty members, including teaching assistants and research assistants.

(b) Each governing board shall file a copy of these regulations with the Coordinating Board, Texas College and University System. Each governing board shall file any amendment to its regulations with the coordinating board not later than 30 days after the effective date of the amendment.

SUBCHAPTER D. INFORMATION NETWORK ASSOCIATIONS

Sec. 51.151. DEFINITIONS. In this subchapter:

(1) "Association" means the Western Information
Network Association or any other regional network association created and named by the Coordinating Board, Texas College and University System.

(2) "Member" means one of the institutions of higher education which compose an association.

(3) "Associate member" means an organization other than an institution of higher education admitted to associate membership in an association.

(4) "Board" means the board of directors of an association.

(5) "Director" means a member of a board.

Sec. 51.152. PURPOSE. The purpose of this subchapter is to promote the educational programs of state-supported institutions of higher education in Texas by authorizing the establishment and operation of a cooperative system for communication and information retrieval and transfer between the institutions and between the institutions and private educational institutions, industry, and the public. The system, employing two-way, closed-circuit television and other electronic communication facilities, is to provide a means of effecting the interchange of ideas, talents, faculties, libraries, and data processing equipment and a means of carrying out an approved program of instructional television.

Sec. 51.1521. INTERAGENCY CONTRACTS FOR NETWORKS. Any institution of higher education may enter into an interagency contract with one or more other institutions of higher education for the establishment and operation of a telecommunications network for the transmission of audio or video signals or electronic data, but only to the extent that the telecommunications services are not available through a system of telecommunications services established for state agencies generally. Each of those interagency contracts shall be reviewed by the Texas Higher
Sec. A51.153. WESTERN INFORMATION NETWORK ASSOCIATION. (a) The Western Information Network Association is an agency of the state composed of the following state-supported member institutions of higher education: Amarillo College, Angelo State University, Clarendon Junior College, Frank Phillips College, Howard County Junior College, Midwestern University, Odessa College, South Plains College, Sul Ross State University, Texas Tech University, The University of Texas at El Paso, and West Texas State University.

(b) The board by a majority vote may admit other state-supported institutions of higher education to membership in the association on the approval of the Coordinating Board, Texas College and University System.

(c) The board by unanimous vote may admit private institutions of higher education to membership in the association on the approval of the Coordinating Board, Texas College and University System.

(d) The board by unanimous vote may admit other organizations to associate membership in the association.

(e) The Western Information Network Association is subject to the Texas Sunset Act (Chapter 325, Government Code). Unless continued in existence as provided by that Act, the association is abolished September 1, 1989.

Sec. A51.154. BOARD OF DIRECTORS. The association is governed by a board of directors. The chief administrative officer, or a person designated by the chief administrative officer, of each institution of higher education holding membership in the association shall serve as a director of the board. Service
on the board is an additional duty of employment of the chief administrative officers or the persons designated by the chief administrative officers of state-supported institutions and is not an additional position of honor, trust, or profit. The legislature finds that this service is necessary in accomplishing the purpose of this subchapter; is compatible with their employment; and will benefit the educational program of the institution and of the state.

Sec. 51.155. DIRECTOR'S EXPENSES. A director is entitled to receive reimbursement for actual expenses incurred in attending meetings of the board and in attending to the business of the association which is authorized by a resolution of the board.

Sec. 51.156. MEETINGS OF THE BOARD; QUORUM; ACTION BY BOARD. (a) The board shall hold a meeting at least once each quarter and may hold meetings at other times at the call of the chairman of the board or at the request of a majority of the other directors.

(b) A majority of the membership of the board constitutes a quorum at a meeting of the board.

(c) Action may be taken by the board by the affirmative vote of the majority of the directors present at a meeting at which a quorum is present.

Sec. 51.211. CUMULATIVE EFFECT. The provisions of this subchapter are cumulative of all other laws.

Sec. 51.212. PEACE OFFICERS AT PRIVATE INSTITUTIONS. (a) The governing boards of private institutions of higher education, including private junior colleges, are authorized to employ and commission peace officers for the purpose of enforcing:
(1) state law on the campuses of private institutions of higher education; and

(2) state and local law, including applicable municipal ordinances, at other locations, as permitted by Subsection (b) or Section 51.2125.

(b) Any officer commissioned under the provisions of this section is vested with all the powers, privileges, and immunities of peace officers if the officer:

(1) is on the property under the control and jurisdiction of the respective private institution of higher education or is otherwise performing duties assigned to the officer by the institution, regardless of whether the officer is on property under the control and jurisdiction of the institution, but provided these duties are being performed within a county in which the institution has land; or

(c) Any officer assigned to duty and commissioned shall take and file the oath required of peace officers, and shall execute and file a good and sufficient bond in the sum of $1,000, payable to the governor, with two or more good and sufficient sureties, conditioned that the officer will fairly, impartially, and faithfully perform the duties as may be required of the officer by law. The bond may be sued on from time to time in the name of the person injured until the whole amount is recovered.

(d) The governing boards of private institutions of higher education are authorized to hire and pay on a regular basis peace officers commissioned by an incorporated city. The officers shall be under the supervision of the hiring institution, but shall be subject to dismissal and disciplinary action by the city. Sec. 51.2125. PRIVATE INSTITUTIONS: AUTHORITY TO ENTER INTO MUTUAL ASSISTANCE AGREEMENT. (a) This section applies only to a private institution of higher education that has under its control and jurisdiction property that is contiguous to, or located in any part within the boundaries of, a home-rule municipality that has a population of 1.18 million or more and is located predominantly in a county that has a total area of less than 1,000 square miles. For purposes of this section, a private institution of higher education is a private or independent institution of higher education as defined by Section 61.003.

(b) In addition to exercising the authority provided under Section 51.212(d), the governing board of a private institution of higher education to which this section applies and the governing body of each municipality, regardless of the municipality's population, that is contiguous to, or the boundaries of which contain any part of, property under the control and jurisdiction of the private institution of higher education may enter into a written mutual assistance agreement in which peace officers commissioned by the institution or the applicable municipality
serve the public interest by assisting, without any form of additional compensation or other financial benefit, the peace officers of the other party to the agreement in enforcing state or local law, including applicable municipal ordinances. The agreement must be reviewed at least annually by the institution and the municipality and may be modified at that time by a written agreement signed by each party. The agreement may be terminated at any time by a party to the agreement on the provision of reasonable notice to the other party to the agreement.

(c) A mutual assistance agreement authorized by this section may designate the geographic area in which the campus peace officers are authorized to provide assistance to the peace officers of the municipality, except that if the agreement is entered into with a municipality described by Subsection (a) that elects all or part of the municipality's governing body from election districts, the designated geographic area consists of each of the election districts of the municipality's governing body that contains any part of the campus of the institution and each of the election districts of the governing body that is contiguous to another municipality that contains any part of the campus of the institution.

(d) This section does not affect a municipality's duty to provide law enforcement services to any location within the boundaries of the municipality.

(e) A peace officer providing assistance under a mutual assistance agreement authorized by this section may make arrests and exercise all other authority given to peace officers under other state law. The municipal law enforcement agency has exclusive authority to supervise any campus peace officer operating under the agreement to assist the peace officers of the municipality. A municipal peace officer operating under the agreement to assist the campus peace officers remains under the supervision of the municipal law enforcement agency.

(f) In the same manner and to the same extent as a municipality is liable for an act or omission of a peace officer employed by the municipality, a private institution of higher education is liable for an act or omission of a campus peace officer
operating under a mutual assistance agreement authorized by this 
section at a location other than property under the control and 
jurisdiction of the institution.

(g) This section does not limit the authority of a campus 
peace officer to make a warrantless arrest outside the officer's 
jurisdiction as described by Article 14.03(d), Code of Criminal 
Procedure.

Sec. 51.2126. APPEAL BY CAMPUS PEACE OFFICER OF 
DISCIPLINARY ACTION OR PROMOTIONAL BYPASS RELATED TO PROVISION OF 
ASSISTANCE UNDER MUTUAL ASSISTANCE AGREEMENT. (a) A campus peace 
officer acting under a mutual assistance agreement authorized by 
Section 51.2125 who is demoted, suspended, or terminated by the 
applicable private institution of higher education or who 
experiences a promotional bypass by the institution may elect to 
appeal the institution's action to an independent third party 
hearing examiner under this section.

(b) To elect to appeal to an independent third party hearing 
examiner under this section, the campus peace officer must submit 
to the head of the institution's law enforcement agency not later 
than the 30th day after the date of the action being appealed a 
written request stating the officer's decision to appeal to such a 
hearing examiner.

(c) The hearing examiner's decision is final and binding on 
all parties. If a campus peace officer elects to appeal the 
institution's action to an independent third party hearing examiner 
under this section, the officer or institution may appeal the 
examiner's decision to a district court only as provided by 
Subsection (j).

(d) If a campus peace officer elects to appeal to a hearing 
examiner, the officer and the head of the institution's law 
enforcement agency or their designees shall attempt to agree on the
selection of an impartial hearing examiner. If the parties do not agree on the selection of a hearing examiner before the 10th day after the date the appeal is filed, the parties immediately shall request a list of seven qualified neutral arbitrators from the American Arbitration Association or the Federal Mediation and Conciliation Service, or their successors in function. The officer and the agency head or their designees may agree on one of the seven neutral arbitrators on the list. If the parties do not agree before the fifth business day after the date the parties receive the list, the parties or their designees shall alternate striking a name from the list, and the single name remaining after all other names have been struck is selected as the hearing examiner. The parties or their designees shall agree on a date for the hearing.

(e) The appeal hearing must begin as soon as an appearance by the hearing examiner can be scheduled. If the hearing examiner cannot begin the hearing before the 45th day after the date of selection, the campus peace officer may, within 48 hours after learning of that fact, call for the selection of a new hearing examiner using the procedure prescribed by Subsection (d).

(f) In a hearing conducted under this section, the hearing examiner has the same duties and powers that a civil service commission has in conducting a hearing or hearing an appeal under Chapter 143, Local Government Code, including the right to issue subpoenas. The hearing examiner may:

(1) order that the campus peace officer be reinstated to the same position or status in which the officer was employed immediately before the demotion, suspension, or termination or, in the case of a promotional bypass, to the position or status with respect to which the officer experienced the bypass; and

(2) award the officer lost wages and any other compensation lost as a result of the disciplinary action or promotional bypass, as applicable.

(g) In a hearing conducted under this section, the parties may agree to an expedited hearing procedure. Unless otherwise agreed by the parties, in an expedited procedure the hearing examiner shall issue a decision on the appeal not later than the
10th day after the date the hearing is completed.

(h) In an appeal that does not involve an expedited hearing procedure, the hearing examiner shall make a reasonable effort to issue a decision on the appeal not later than the 30th day after the later of the date the hearing is completed or the briefs are filed. The hearing examiner's inability to meet the time requirements imposed by this section does not affect the hearing examiner's jurisdiction, the validity of the disciplinary action or promotional bypass, or the hearing examiner's final decision.

(i) The hearing examiner's fees and expenses shall be paid in equal amounts by the parties. The costs of a witness shall be paid by the party who calls the witness.

(j) A district court may hear an appeal of a hearing examiner's decision only on the grounds that the hearing examiner was without jurisdiction or exceeded the examiner's jurisdiction or that the decision was procured by fraud, collusion, or other unlawful means. An appeal must be brought in the district court having jurisdiction in the municipality in which the institution is located.

Sec. 51.213. ABANDONED PERSONAL PROPERTY. (a) The governing board of each state institution of higher education, including public junior colleges, is authorized to promulgate rules and regulations providing for the disposition of abandoned and unclaimed personal property coming into the possession of the campus security personnel where the personal property is not being held as evidence to be used in any pending criminal case.

(b) The authority granted to governing boards under Subsection (a) may also be exercised by governing boards of private institutions of higher education, including private junior colleges.

(c) In this section, "private institution of higher education" has the meaning assigned by Section 61.003(15).

The college or university may determine that a student has satisfied this requirement in whole or part on the basis of credit granted to the student by the college or university for a substantially equivalent course completed at another accredited college or university, or on the basis of the student's successful completion of an advanced standing examination administered on the conditions and under the circumstances common for the college or university's advanced standing examinations. The college or university may grant as much as three semester hours of credit or its equivalent toward satisfaction of this requirement for substantially equivalent work completed by a student in the program of an approved senior R.O.T.C. unit.

(c) The governing board of a general academic teaching institution that offers a joint baccalaureate degree program under a contract with a foreign college or university may exempt a student enrolled in the joint degree program from the course requirement prescribed by Subsection (b) if the student:

Sec. 51.3062. SUCCESS INITIATIVE. (a) The definitions provided by Section 61.003 apply to this section.

(a-1) In this section:

(1) "Basic academic skills education" means non-course competency-based developmental education programs and interventions designed for students whose performance falls significantly below college readiness standards.

(2) "Program evaluation" means a systematic method of collecting, analyzing, and using information to answer questions about developmental education courses, interventions, and policies, particularly about their effectiveness and cost-efficiency.

(b) An institution of higher education shall assess the academic skills of each entering undergraduate student to determine the student's readiness to enroll in freshman-level academic coursework. An institution may not use the assessment or the results of the assessment as a condition of admission to the institution.

(c) The board shall designate one or more instruments for use by institutions of higher education in assessing students under this section.

(e) Repealed by Acts 2011, 82nd Leg., R.S., Ch. 965, Sec. 3, eff. June 17, 2011.

(f) Each assessment instrument designated by the board for use under this section must be diagnostic in nature and designed to assess a student's readiness to perform freshman-level academic coursework. The board shall prescribe a single standard or set of standards for each assessment instrument to effectively measure student readiness as demonstrated by current research.

(f-1) For each assessment instrument designated by the board for use under this section, the board shall prescribe a score below which a student is eligible for basic academic skills education.

(g) Each institution of higher education shall establish a program to advise students regarding coursework and other means by
which students can develop the academic skills required to successfully complete college-level work.

(h) If a student fails to meet the assessment standards described by Subsection (f), the institution of higher education shall work with the student to develop a plan to assist the student in becoming ready to perform freshman-level academic coursework. The plan must be designed on an individual basis to provide the best opportunity for each student to attain that readiness.

(i) The institution of higher education may refer a student to developmental coursework, including basic academic skills education, as considered necessary by the institution to address a student's deficiencies in the student's readiness to perform freshman-level academic coursework, except that the institution may not require enrollment in developmental coursework with respect to a student previously determined under Subsection (q-1) or determined by any institution of higher education to have met college-readiness standards. An institution that requires a student to enroll in developmental coursework must offer a range of developmental coursework, including online coursework, or instructional support that includes the integration of technology to efficiently address the particular developmental needs of the student.

(i-1) The commissioner of higher education may by rule require an institution of higher education to adopt uniform standards for the placement of a student under this section.

(i-2) An institution of higher education must base developmental coursework on research-based best practices that include the following components:

1. assessment;
2. differentiated placement and instruction;
3. faculty development;
4. support services;
5. program evaluation;
6. integration of technology with an emphasis on instructional support programs;
7. non-course-based developmental education interventions; and
(8) course pairing of developmental education courses with credit-bearing courses.

(i-3) The board shall adopt rules for the implementation of Subsection (i-2).

(i-4) The board, in consultation with institutions of higher education, shall develop and provide professional development programs, including instruction in differentiated instruction methods designed to address students' diverse learning needs, to faculty and staff who provide developmental coursework, including basic academic skills education, to students.

(j) A student may retake an assessment instrument at any time to determine readiness to perform freshman-level academic coursework.

(k) An institution of higher education shall determine when a student is ready to perform freshman-level academic coursework. The institution must make its determination using learning outcomes for developmental education courses developed by the board based on established college and career readiness standards and student performance on one or more appropriate assessments.

(l) The legislature shall appropriate money for approved non-degree-credit developmental courses, including basic academic skills education, except that legislative appropriations may not be used for developmental coursework taken by a student in excess of:

(1) 18 semester credit hours, for a general academic teaching institution; and

(2) 27 semester credit hours, for a public junior college, public technical institute, or public state college.

(m) The board may develop formulas to supplement the funding of developmental academic programs by institutions of higher education, including formulas for supplementing the funding of non-course-based programs. The board may develop a performance funding formula by which institutions may receive additional funding for each student who completes the Success Initiative established under this section and then successfully completes college coursework. The legislature may appropriate the money required to provide the additional funding under those formulas.
(n) Each institution of higher education, other than a medical and dental unit, shall report annually to the board on the success of its students and the effectiveness of its Success Initiative.

(o) The board shall evaluate the effectiveness of the Success Initiative on a statewide basis and with respect to each institution of higher education.

(p) A student who has achieved a score set by the board on the Scholastic Assessment Test (SAT) or the American College Test (ACT) is exempt from the requirements of this section. An exemption under this subsection is effective for the five-year period following the date a student takes the test and achieves the standard set by the board.

(q) A student who has achieved scores set by the board on the questions developed for end-of-course assessment instruments under Section 39.0233(a) is exempt from the requirements of this section. The exemption is effective for the three-year period following the date a student takes the last assessment instrument for purposes of this section and achieves the standard set by the board. This subsection does not apply during any period for which the board designates the questions developed for end-of-course assessment instruments under Section 39.0233(a) as the primary assessment instrument under this section, except that the three-year period described by this subsection remains in effect for students who qualify for an exemption under this subsection before that period.

(q-1) A student who has demonstrated the performance standard for college readiness as provided by Section 28.008 on the postsecondary readiness assessment instruments adopted under Section 39.0238 for Algebra II and English III is exempt from the requirements of this section with respect to those content areas. The commissioner of higher education by rule shall establish the period for which an exemption under this subsection is valid.

(q-2) A student who successfully completes a college preparatory course under Section 28.014 is exempt from the requirements of this section with respect to the content area of the
The exemption is effective for the two-year period following the date the student graduates from high school, and the student must enroll in the student's first college-level course in the exempted content area in the student's first year of enrollment in an institution of higher education. If the student earns less than a C in the student's first college-level course in the exempted content area, the institution shall advise the student of non-course-based options for becoming college ready, such as tutoring or accelerated learning. The exemption applies only at the institution of higher education that partners with the school district in which the student is enrolled to provide the course, except that the commissioner by rule may determine the manner in which the exemption may be applied to institutions of higher education other than the partnering institution. The Texas Higher Education Coordinating Board shall collect and analyze data regarding the effectiveness of college preparatory courses as measured by students' successful completion of the first college-level course in the exempted content area. The board shall report its findings to all partnering institutions of higher education and independent school districts of each college preparatory course evaluated, as well as the governor, lieutenant governor, speaker of the house of representatives, and the members of the House and Senate Committees on Higher Education.

(r) This section does not apply to:

(1) a student who has graduated with an associate or baccalaureate degree from an institution of higher education;

(2) a student who transfers to an institution of higher education from a private or independent institution of higher education or an accredited out-of-state institution of higher education and who has satisfactorily completed college-level coursework;

(3) a student who is enrolled in a certificate program of one year or less at a public junior college, a public technical institute, or a public state college;

(4) a student who is serving on active duty as a member of:

(A) the armed forces of the United States; or
(B) the Texas National Guard;

(5) a student who is currently serving as and, for at least the three-year period preceding enrollment, has served as a member of a reserve component of the armed forces of the United States; or

(6) a student who on or after August 1, 1990, was honorably discharged, retired, or released from:

(A) active duty as a member of the armed forces of the United States or the Texas National Guard; or

(B) service as a member of a reserve component of the armed forces of the United States.

(s) An institution of higher education may exempt a non-degree-seeking or non-certificate-seeking student from the requirements of this section.

(t) To allow a student to complete any necessary developmental coursework in the most efficient and cost-effective manner, the board shall encourage institutions of higher education to offer various types of developmental coursework that address various levels of deficiency in readiness to perform college coursework for which course credit may be earned, as determined on the basis of assessments as described by Subsection (f). The types of developmental coursework may include:

(1) course-based programs;

(2) non-course-based programs, such as advising programs;

(3) module format programs;

(4) competency-based education programs;

(5) basic academic skills education, if applicable to the student; and

(6) programs under which the student is pairing or taking concurrently a developmental education course and another course in the same subject area for which course credit may be earned.

(t-1) The board may adopt rules as necessary to implement this section.

(u) An institution of higher education that administers an assessment instrument to students under this section shall report
to each school district from which assessed students graduated high school all available information regarding student scores and performance on the assessment instrument and student demographics. The board shall adopt rules as necessary to implement this subsection, including rules for implementing this subsection in a manner that complies with federal law regarding confidentiality of student medical or educational information, including the Health Insurance Portability and Accountability Act of 1996 (42 U.S.C. Section 1320d et seq.) and the Family Educational Rights and Privacy Act of 1974 (20 U.S.C. Section 1232g), and any state law relating to the privacy of student information.

(c) Except as provided by Subsection (f), not later than November 1 of each year, the student government of each general academic teaching institution and medical and dental unit in a university system shall solicit applicants for appointment to the next regular term of the position of student regent. Not later than January 1, from among the applications received by the student government, the student government shall select five applicants as the student government’s recommendations for the position of student regent and send the applications of those applicants to the chancellor of the university system. From among those applicants, the chancellor shall select two or more applicants as the university system's recommendations for the position of student regent and shall send the applications of those applicants to the governor not later than February 1. The governor may request to review all applications for the position of student regent received by the student governments and may request an applicant to submit additional information to the governor. On June 1, or as soon thereafter as practicable, the governor shall appoint one of the applicants to serve as the student regent for the system for a one-year term expiring on the next May 31. The governor is not required to appoint an applicant recommended by the chancellor, but may not appoint a student regent who did not submit an application to the student government of a general academic teaching institution or medical and dental unit in the system as described by this subsection.

The president of the institution in which the student regent is enrolled shall notify the governor if the student regent fails to maintain the qualifications required by this section.

   (e) A student regent is not a member of the board of regents of the system for which the student regent is appointed. A student regent has the same powers and duties as the members of the board of regents of the system, including the right to attend and participate in meetings of the board of regents, except that the student regent:

   (1) may not vote on any matter before the board or make or second any motion before the board; and

(1) may not vote on any matter before the board or make or second any motion before the board; and

(2) is not counted in determining whether a quorum exists for a meeting of the board or in determining the outcome of any vote of the board.

(g) A vacancy in the position of student regent for an institution shall be filled for the unexpired term by appointment by the governor in consultation with the president of the institution.

(h) On receiving notice under Subsection (e-1) from the president of the institution that the student regent has failed to maintain the qualifications required by this section, the governor shall declare the position of student regent vacant and as soon as practicable fill the vacancy in the manner prescribed by Subsection (g).

(i) A student regent serves without compensation but is entitled to be reimbursed for the actual expenses incurred by the student regent in attending the meetings of the board of regents, subject to the approval of the chairman of the board of regents.

Sec. 51.701. LEGISLATIVE FINDINGS. The legislature finds that:

(1) strength in the manufacturing sector is critical to the United States' and Texas' international competitive position, as well as to the national security. Manufacturing has the highest economic multiplier of any industrial sector, contributing to economic growth and personal wealth. High technology manufacturing has the highest economic multiplier among manufacturing sectors;

(2) the health of the manufacturing sector is critical for economic growth in Texas. Texas, as a primary producer of raw materials, finds itself positioned to benefit tremendously from improvement and development of its manufacturing capabilities, even while the Texas economy suffers the consequences of having depended too heavily on production of raw materials alone; and

(3) manufacturing industry sales growth and productivity increases have been shown to move in direct relation to the performance of research and development by the industry.

Added by Acts 1987, 70th Leg., ch. 44, Sec. 1, eff. April 29, 1987.

Sec. 51.702. PURPOSE. It is the intent of the legislature that Texas accept the challenge of becoming the nation's centerpoint for advanced manufacturing technology development by aggressively pursuing the siting in Texas of the National Center for Manufacturing Sciences, proposed by the National Academy of Sciences and the Manufacturing Science Board, and initiated by the National Machine Tool Industry. With this centerpiece for advanced research and technology transfer in the area of manufacturing sciences, Texas could become a primary producer of high value-added products, with enormous benefits for the entire economy.

Added by Acts 1987, 70th Leg., ch. 44, Sec. 1, eff. April 29, 1987.

Sec. 51.703. DEFINITION. In this subchapter, "fund" means the fund for the National Center for Manufacturing Sciences.

Added by Acts 1987, 70th Leg., ch. 44, Sec. 1, eff. April 29, 1987.
Sec. 51.704. FUND. (a) The fund for the National Center for Manufacturing Sciences is created as a special fund in the state treasury.

(b) The fund consists of:

(1) appropriations; and

(2) grants from industry and other sources.

(c) For each biennium the legislature may appropriate to the fund an amount equal to the amount of donations received from private sources for the biennium, not to exceed $2 million per biennium.

(d) The comptroller shall administer the fund until the center is located in Texas.

(e) The comptroller may accept grants for the purpose of the fund.

Added by Acts 1987, 70th Leg., ch. 44, Sec. 1, eff. April 29, 1987. Amended by Acts 1997, 75th Leg., ch. 1423, Sec. 5.09, eff. Sept. 1, 1997.

Sec. 51.705. USE OF FUND. (a) When the National Center for Manufacturing Sciences is announced for location in Texas, the existing funds (and all subsequent funds) will be made available for use by the center in accordance with its charter.

Sec. 51.761. DEFINITIONS. In this subchapter, "board," "general academic teaching institution," "governing board," "institution of higher education," "public state college," "public technical institute," and "university system" have the meanings
Sec. 51.762. COMMON ADMISSION APPLICATION FORMS. (a) The board, with the assistance of an advisory committee composed of representatives of general academic teaching institutions, junior college districts, public state colleges, and public technical institutes, and with the consultation of all institutions of higher education that admit freshman-level students:

(1) shall adopt by rule:

(A) a common admission application form for use by a person seeking admission as a freshman student to a general academic teaching institution;

(B) an electronic common admission application form for use by a person seeking admission as a freshman student to an institution of higher education that admits freshman-level students, other than a general academic teaching institution; and

(C) if the board determines that adoption of the form would be cost-effective for nursing schools, an electronic common admission application form for use by a person seeking admission as a student to an undergraduate nursing education program at an institution of higher education; and

(2) may adopt by rule a printed format common admission application form for use by a person seeking admission as a freshman student to an institution of higher education that admits freshman-level students, other than a general academic teaching institution.

(b) The board, with the assistance of an advisory committee composed of representatives of general academic teaching institutions, junior college districts, public state colleges, and public technical institutes, and with the consultation of all institutions of higher education that admit undergraduate transfer students, may adopt by rule:

(1) a common admission application form for use by a
person seeking admission as an undergraduate transfer student to a
general academic teaching institution;

(2) an electronic or printed format common admission
application form for use by a person seeking admission as an
undergraduate transfer student to an institution of higher
education that admits undergraduate transfer students, other than a
general academic teaching institution; and

would be cost-effective for nursing schools, an electronic common
admission application form for use by a person seeking admission as
a transfer student to an undergraduate nursing education program at
an institution of higher education.

(c) In addition to information required to determine the
residency status of the applicant and information relating to the
use of the form at each institution, the board shall include on each
application form adopted under this section information that the
board considers appropriate.

(d) The board shall attempt to ensure as much uniformity in
the forms adopted under this section as possible, regardless of the
category of institution for which the forms are adopted.

(e) The board shall publicize in both electronic and printed
formats the availability of a form adopted under this section.

(f) The board shall ensure that copies of the freshman
common admission application forms and information for the use of
the forms are available in electronic format for distribution to
the appropriate personnel at each public high school in this state.

(g) The board shall make a form adopted under this section
available to the public electronically by the Internet or other
commonly used telecommunications media and may contract with an
institution of higher education or other provider to satisfy this
requirement.

(h) An applicant may file, and each institution of higher
education shall accept, an application for admission as an entering
freshman or undergraduate transfer student that uses the
appropriate form adopted under this section. The form used to
apply to a general academic teaching institution may be filed in
either electronic or printed format. An institution of higher
education is not prohibited from requiring an applicant to submit additional information within a reasonable time after the institution has received an application using a form adopted under this section.

(i) In addition to other information considered appropriate by the board, the board by rule shall require each institution to collect information regarding gender, ethnicity, and date of birth as part of the application process and report this information to the board.

Sec. 51.763. ELECTRONIC ADMISSION APPLICATION FORM FOR UNIVERSITY SYSTEMS. (a) The governing board of a university system shall adopt a common admission application form consistent with this subchapter to be used by any person seeking freshman or undergraduate transfer admission to one or more of the general academic teaching institutions within the university system.

(b) The form shall allow each applicant to:

(1) apply electronically to one or more of the general academic teaching institutions within the university system; and

(2) indicate preferences for admission between those institutions.

(c) A general academic teaching institution is not prohibited from requiring an applicant to submit additional information within a reasonable time after the institution has received an application under this section.

Added by Acts 1997, 75th Leg., ch. 11, Sec. 1, eff. April 25, 1997.

Sec. 51.764. FEES. This subchapter does not affect the authority of an institution of higher education to receive a reasonable fee for the filing of an application for admission.

Added by Acts 1997, 75th Leg., ch. 11, Sec. 1, eff. April 25, 1997.
Sec. 51.776. DEFINITIONS. In this subchapter:

(1) "Architect" means an individual registered as an architect under Chapter 1051, Occupations Code.

(2) "Board" means the governing body of an institution.

(3) "Contractor" in the context of a contract for the construction, rehabilitation, alteration, or repair of a facility means a sole proprietorship, partnership, corporation, or other legal entity that assumes the risk for constructing, rehabilitating, altering, or repairing all or part of the facility at the contracted price.

(4) "Engineer" means an individual licensed as an engineer under Chapter 1001, Occupations Code.

(5) "Facility" means real property, including buildings and associated structures and improved or unimproved land.

(6) "Fee" in the context of a contract for the construction, rehabilitation, alteration, or repair of a facility means the payment a construction manager receives for its overhead and profit in performing its services.

(7) "General conditions" in the context of a contract for the construction, rehabilitation, alteration, or repair of a facility means on-site management, administrative personnel, insurance, bonds, equipment, utilities, and incidental work, including minor field labor and materials.

(8) "Institution" means an institution of higher education as defined by Section 61.003, other than a public junior college.

Sec. 51.777. DELEGATION OF AUTHORITY. A board may, as
appropriate, delegate by rule its authority under this subchapter to its designated representative.

Sec. 51.778. COMPETITIVE BIDDING ON CONTRACTS. (a) Except as otherwise provided by this subchapter, all contracts for the construction or erection of permanent improvements at an institution are void unless made after advertising for bids for the contracts in a manner prescribed by the institution's board, receiving sealed competitive bids, and awarding of the contract to the lowest responsible bidder by the board.

(b) If a contract awarded under sealed competitive bidding is to be recommended for award to other than the lowest bidder, any bidder making a lower bid than the recommended bid shall be notified of the recommendation for award and shall be allowed an opportunity before the award to present evidence to the board or its designated representative as to the responsibility of that bidder.

Sec. 51.779. EVALUATION OF BIDS AND PROPOSALS FOR CONSTRUCTION SERVICES. (a) An institution that is considering a construction contract using a method authorized by this subchapter must, before advertising, determine which method provides the best value for the institution.

(b) The institution shall base its selection among the offerors on criteria established by the institution. The institution shall publish in the request for bids, proposals, or qualifications the criteria that will be used to evaluate the offerors.

(c) The institution shall document the basis of its selection and shall make the evaluations public not later than the seventh day after the date the contract is awarded.

Sec. 51.780. DESIGN-BUILD CONTRACTS FOR FACILITIES. (a)
In this section:

(1) "Design-build contract" means a single contract with a design-build firm for the design and construction of a facility.

(2) "Design-build firm" means a partnership, corporation, or other legal entity or team that includes an engineer or architect and builder qualified to engage in building construction in Texas.

(3) "Design criteria package" means a set of documents that provides sufficient information to permit a design-build firm to prepare a response to an institution's request for qualifications and any additional information requested, including criteria for selection. The design criteria package must specify criteria the institution considers necessary to describe the project and may include, as appropriate, the legal description of the site, survey information concerning the site, interior space requirements, special material requirements, material quality standards, conceptual criteria for the project, special equipment requirements, cost or budget estimates, time schedules, quality assurance and quality control requirements, site development requirements, applicable codes and ordinances, provisions for utilities, parking requirements, or any other requirement, as applicable.

(b) An institution may use the design-build method for the construction, rehabilitation, alteration, or repair of a facility. In using that method and in entering into a contract for the services of a design-build firm, the contracting institution and the design-build firm shall follow the procedures provided by Subsections (c)-(k).

(c) The board may designate an engineer or architect independent of the design-build firm to act as its representative for the duration of the work on the facility. If the board's engineer or architect is not a full-time employee of the institution, any engineer or architect designated shall be selected on the basis of demonstrated competence and qualifications in accordance with Section 2254.004, Government Code.

(d) The institution shall prepare a request for
qualifications that includes general information on the project site, project scope, budget, special systems, selection criteria, and other information that may assist potential design-build firms in submitting proposals for the project. The institution shall also prepare the design criteria package that includes more detailed information on the project. If the preparation of the design criteria package requires engineering or architectural services that constitute the practice of engineering within the meaning of Chapter 1001, Occupations Code, or the practice of architecture within the meaning of Chapter 1051, Occupations Code, those services shall be provided in accordance with the applicable law.

(e) The board or its representative shall publish the request for qualifications in a manner prescribed by the board.

(f) The board or its representative shall evaluate statements of qualifications and select a design-build firm in two phases:

(1) In phase one, the board or its representative shall prepare a request for qualifications and evaluate each offeror's experience, technical competence, and capability to perform, the past performance of the offeror's team and members of the team, and other appropriate factors submitted by the team or firm in response to the request for qualifications, except that cost-related or price-related evaluation factors are not permitted. Each offeror must certify to the board that each engineer or architect that is a member of its team was selected based on demonstrated competence and qualifications in the manner provided by Section 2254.004, Government Code. The board or its representative shall qualify a maximum of five offerors to submit additional information and, if the board or its representative chooses, to interview for final selection.

(2) In phase two, the board or its representative shall evaluate the information submitted by the offerors on the basis of the selection criteria stated in the request for qualifications and the results of any interview. The board or its representative may request additional information regarding demonstrated competence and qualifications, considerations of the
safety and long-term durability of the project, the feasibility of implementing the project as proposed, the ability of the offeror to meet schedules, costing methodology, or other factors as appropriate. The board or its representative may not require offerors to submit detailed engineering or architectural designs as part of the proposal. The board or its representative shall rank each proposal submitted on the basis of the criteria specified in the request for qualifications. The board or its representative shall select the design-build firm that submits the proposal offering the best value for the institution on the basis of the published selection criteria and on its ranking evaluations. The board or its representative shall first attempt to negotiate with the selected offeror a contract. If the board or its representative is unable to negotiate a satisfactory contract with the selected offeror, the institution shall, formally and in writing, end all negotiations with that offeror and proceed to negotiate with the next offeror in the order of the selection ranking until a contract is reached or negotiations with all ranked offerors end.

(g) Following selection of a design-build firm under Subsection (f), that firm's engineers or architects shall complete the design, submitting all design elements for review and determination of scope compliance by the institution's engineer or architect before or concurrently with construction.

(h) An engineer shall have responsibility for compliance with the engineering design requirements and all other applicable requirements of Chapter 1001, Occupations Code. An architect shall have responsibility for compliance with the requirements of Chapter 1051, Occupations Code.

(i) The institution shall provide or contract for, independently of the design-build firm, the inspection services, the testing of construction materials engineering, and the verification testing services necessary for acceptance of the facility by the institution. The institution shall select those services for which it contracts in accordance with Section 2254.004, Government Code.

(j) The design-build firm shall supply a signed and sealed set of construction documents for the project to the institution at
the conclusion of construction.

(k) A payment or performance bond is not required for, and may not provide coverage for, the portion of a design-build contract under this section that includes design services only. If a fixed contract amount or guaranteed maximum price has not been determined at the time a design-build contract is awarded, the penal sums of the performance and payment bonds delivered to the institution shall each be in an amount equal to the project budget, as specified in the design criteria package. The design-build firm shall deliver the bonds not later than the 10th day after the date the design-build firm executes the contract unless the design-build firm furnishes a bid bond or other financial security acceptable to the institution to ensure that the design-build firm will furnish the required performance and payment bonds when a guaranteed maximum price is established.

Sec. 51.781. CONTRACTS FOR FACILITIES: CONSTRUCTION MANAGER-AGENT. (a) An institution may use the construction manager-agent method for the construction, rehabilitation, alteration, or repair of a facility. In using that method and in entering into a contract for the services of a construction manager-agent, a board shall follow the procedures prescribed by this section.

(b) A construction manager-agent is a sole proprietorship, partnership, corporation, or other legal entity that provides consultation to the institution regarding construction, rehabilitation, alteration, or repair of the facility. An institution using the construction manager-agent method may, under the contract between the institution and the construction manager-agent, require the construction manager-agent to provide administrative personnel, equipment necessary to perform duties under this section, and on-site management and other services
specified in the contract. A construction manager-agent represents the institution in a fiduciary capacity.

(c) Before or concurrently with selecting a construction manager-agent, the board shall select or designate an engineer or architect who shall prepare the construction documents for the project and who has full responsibility for complying with Chapter 1001 or 1051, Occupations Code, as applicable. If the engineer or architect is not a full-time employee of the institution, the board shall select the engineer or architect on the basis of demonstrated competence and qualifications as provided by Section 2254.004, Government Code. The institution's engineer or architect may not serve, alone or in combination with another person, as the construction manager-agent unless the engineer or architect is hired to serve as the construction manager-agent under a separate or concurrent procurement conducted in accordance with this subchapter. This subsection does not prohibit the institution's engineer or architect from providing customary construction phase services under the engineer's or architect's original professional service agreement in accordance with applicable licensing laws.

(d) A board shall select a construction manager-agent on the basis of demonstrated competence and qualifications in the same manner as provided for the selection of engineers or architects under Section 2254.004, Government Code.

(e) A board using the construction manager-agent method shall procure, in accordance with applicable law and in any manner authorized by this chapter, a general contractor, trade contractors, or subcontractors who will serve as the prime contractor for their specific portion of the work.

(f) The board or the construction manager-agent shall procure in accordance with Section 2254.004, Government Code, all of the testing of construction materials engineering, the inspection services, and the verification testing services necessary for acceptance of the facility by the institution.

Sec. 51.782. CONTRACTS FOR FACILITIES: CONSTRUCTION MANAGER-AT-RISK. (a) An institution may use the construction manager-at-risk method for the construction, rehabilitation, alteration, or repair of a facility. In using that method and in entering into a contract for the services of a construction manager-at-risk, a board shall follow the procedures prescribed by this section.

(b) A construction manager-at-risk is a sole proprietorship, partnership, corporation, or other legal entity that assumes the risk for construction, rehabilitation, alteration, or repair of a facility at the contracted price as a general contractor and provides consultation to the institution regarding construction during and after the design of the facility.

(c) Before or concurrently with selecting a construction manager-at-risk, the board shall select or designate an engineer or architect who shall prepare the construction documents for the project and who has full responsibility for complying with Chapter 1001 or 1051, Occupations Code, as applicable. If the engineer or architect is not a full-time employee of the institution, the board shall select the engineer or architect on the basis of demonstrated competence and qualifications as provided by Section 2254.004, Government Code. The institution's engineer, architect, or construction manager-agent for a project may not serve, alone or in combination with another, as the construction manager-at-risk unless the engineer or architect is hired to serve as the construction manager-at-risk under a separate or concurrent procurement conducted in accordance with this subchapter. This subsection does not prohibit the institution's engineer or architect from providing customary construction phase services under the engineer's or architect's original professional service agreement in accordance with applicable licensing laws.

(d) The board shall provide or contract for, independently of the construction manager-at-risk, the inspection services, the testing of construction materials engineering, and the verification testing services necessary for acceptance of the facility by the institution. The board shall select those services
for which it contracts in accordance with Section 2254.004, Government Code.

(e) The board shall select the construction manager-at-risk in either a one-step or two-step process. The board shall prepare a request for proposals, in the case of a one-step process, or a request for qualifications, in the case of a two-step process, that includes general information on the project site, project scope, schedule, selection criteria, estimated budget, and the time and place for receipt of proposals or qualifications, as applicable, a statement as to whether the selection process is a one-step or two-step process, and other information that may assist the board in its selection of a construction manager-at-risk. The board shall state the selection criteria in the request for proposals or qualifications, as applicable. The selection criteria may include the offeror's experience, past performance, safety record, proposed personnel and methodology, and other appropriate factors that demonstrate the capability of the construction manager-at-risk. If a one-step process is used, the board may request, as part of the offeror's proposal, proposed fees and prices for fulfilling the general conditions. If a two-step process is used, the board may not request fees or prices in step one. In step two, the board may request that five or fewer offerors, selected solely on the basis of qualifications, provide additional information, including the construction manager-at-risk's proposed fee and its price for fulfilling the general conditions.

(f) The board shall publish the request for qualifications in a manner prescribed by the board.

(g) At each step, the board shall receive, publicly open, and read aloud the names of the offerors. At the appropriate step, the board shall also read aloud the fees and prices, if any, stated in each proposal as the proposal is opened. Within 45 days after the date of opening the proposals, the board or its representative shall evaluate and rank each proposal submitted in relation to the criteria set forth in the request for proposals.

(h) The board or its representative shall select the offeror that submits the proposal that offers the best value for the
institution based on the published selection criteria and on its ranking evaluation. The board or its representative shall first attempt to negotiate with the selected offeror a contract. If the board or its representative is unable to negotiate a satisfactory contract with the selected offeror, the board or its representative shall, formally and in writing, end negotiations with that offeror and proceed to negotiate with the next offeror in the order of the selection ranking until a contract is reached or negotiations with all ranked offerors end.

(i) A construction manager-at-risk shall publicly advertise, in the manner prescribed by the institution, and receive bids or proposals from trade contractors or subcontractors for the performance of all major elements of the work other than general conditions work. A construction manager-at-risk may seek to perform major elements of the work itself if the construction manager-at-risk submits its bid or proposal for that work in the same manner as all other trade contractors or subcontractors and if the board determines that the construction manager-at-risk's bid or proposal provides the best value for the institution. If no satisfactory bid or proposal for a major element of the work is received in the time allowed, the board may negotiate directly with the construction manager-at-risk for performance of that work. The board may negotiate directly with the manager-at-risk for the performance of minor elements of the work that are not included in major work packages.

(j) The construction manager-at-risk and the board or its representative shall review all trade contractor or subcontractor bids or proposals in a manner that does not disclose the contents of the bid or proposal during the selection process to a person not employed by the construction manager-at-risk, engineer, architect, or institution. All bids or proposals shall be made public after the award of the contract or within seven days after the date of final selection of bids and proposals, whichever is later.

(k) If the construction manager-at-risk reviews, evaluates, and recommends to the board a bid or proposal from a trade contractor or subcontractor but the board requires another bid or proposal to be accepted, the institution shall compensate the
construction manager-at-risk by a change in price, time, or guaranteed maximum cost for any additional cost and risk that the construction manager-at-risk may incur because of the board's requirement that another bid or proposal be accepted.

(1) If a selected trade contractor or subcontractor defaults in the performance of its work or fails to execute a subcontract after being selected in accordance with this section, the construction manager-at-risk may, without advertising, itself fulfill the contract requirements or select a replacement trade contractor or subcontractor to fulfill the contract requirements.

(m) If a fixed contract amount or guaranteed maximum price has not been determined at the time the contract is awarded, the penal sums of the performance and payment bonds delivered to the institution must each be in an amount equal to the project budget, as set forth in the request for qualifications. The construction manager shall deliver the bonds not later than the 10th day after the date the construction manager executes the contract unless the construction manager furnishes a bid bond or other financial security acceptable to the institution to ensure that the construction manager will furnish the required performance and payment bonds when a guaranteed maximum price is established.

Sec. 51.783. SELECTING CONTRACTOR FOR CONSTRUCTION SERVICES THROUGH COMPETITIVE SEALED PROPOSALS. (a) In selecting a contractor for construction, rehabilitation, alteration, or repair services for a facility through competitive sealed proposals, a board shall follow the procedures prescribed by this section.

(b) The board shall select or designate an engineer or architect to prepare construction documents for the project. The selected or designated engineer or architect has full responsibility for complying with Chapter 1001 or 1051, Occupations Code, as applicable. If the engineer or architect is not a
full-time employee of the institution, the board shall select the engineer or architect on the basis of demonstrated competence and qualifications as provided by Section 2254.004, Government Code.

(c) The board shall provide or contract for, independently of the contractor, the inspection services, the testing of construction materials engineering, and the verification testing services necessary for acceptance of the facility by the institution. The board shall select those services for which it contracts in accordance with Section 2254.004, Government Code, and shall identify them in the request for proposals.

(d) The board shall prepare a request for competitive sealed proposals that includes construction documents, selection criteria, estimated budget, project scope, schedule, and other information that contractors may require to respond to the request. The board shall state in the request for proposals the selection criteria that will be used in selecting the successful offeror.

(e) The board shall publish notice of the request for proposals in a manner prescribed by the board.

(f) The board shall receive, publicly open, and read aloud the names of the offerors and, if any are required to be stated, all prices stated in each proposal. Within 45 days after the date of opening the proposals the board shall evaluate and rank each proposal submitted in relation to the published selection criteria.

(g) The board shall select the offeror that offers the best value for the institution based on the published selection criteria and on its ranking evaluation. The board shall first attempt to negotiate with the selected offeror a contract. The board and its engineer or architect may discuss with the selected offeror options for a scope or time modification and any price change associated with the modification. If the board is unable to reach a contract with the selected offeror, the board shall, formally and in writing, end negotiations with that offeror and proceed to the next offeror in the order of the selection ranking until a contract is reached or all proposals are rejected.

(h) In determining best value for the institution, the board is not restricted to considering price alone but may consider any other factor stated in the selection criteria.
Sec. A51.784. JOB ORDER CONTRACTS FOR FACILITIES CONSTRUCTION OR REPAIR. (a) An institution may award job order contracts for the minor construction, repair, rehabilitation, or alteration of a facility if the work is of a recurring nature but the delivery times are indefinite and indefinite quantities and orders are awarded substantially on the basis of predescribed and prepriced tasks.

(b) The institution may establish contractual unit prices for a job order contract by:

1. specifying one or more published construction unit price books and the applicable divisions or line items; or
2. providing a list of work items and requiring the offerors to bid or propose one or more coefficients or multipliers to be applied to the price book or work items as the price proposal.

(c) The board shall advertise for, receive, and publicly open sealed proposals for job order contracts.

(d) The board may require offerors to submit additional information besides rates, including experience, past performance, and proposed personnel and methodology.

(e) The board may award job order contracts to one or more job order contractors in connection with each solicitation of bids or proposals.

(f) An order for a job or project under the job order contract must be signed by the board's representative and the contractor. The order may be a fixed price, lump-sum contract based substantially on contractual unit pricing applied to estimated quantities or may be a unit price order based on the quantities and line items delivered.

(g) The contractor shall provide payment and performance bonds, if required by law, based on the amount or estimated amount of any order.

(h) The base term of a job order contract is for the period
and with any renewal options that the institution sets forth in the request for proposals. If the institution fails to advertise that term, the base term may not exceed two years and is not renewable without further advertisement and solicitation of proposals.

(i) If a job order contract or an order issued under the contract requires engineering or architectural services that constitute the practice of engineering within the meaning of Chapter 1001, Occupations Code, or the practice of architecture within the meaning of Chapter 1051, Occupations Code, the board shall select or designate an architect or engineer to prepare the construction documents for the facility. If the architect or engineer is not a full-time employee of the institution, the board shall select the architect or engineer on the basis of demonstrated competence and qualifications as provided by Section 2254.004, Government Code.

The board of an institution may not enter into a contract with a person relating to a permanent improvement project at the institution under which the institution makes contractual payments to the person that are not reflected on the institution's financial statement unless the board:

(1) is specifically authorized to enter into the contract by other law; or

Sec. 51.802. UNIFORM ADMISSION SYSTEM. A general academic teaching institution shall admit first-time freshman students for each semester under the provisions of this subchapter.

Added by Acts 1997, 75th Leg., ch. 155, Sec. 1, eff. Sept. 1, 1997.

Sec. 51.803. AUTOMATIC ADMISSION: ALL INSTITUTIONS. (a) Subject to Subsection (a-1), each general academic teaching institution shall admit an applicant for admission to the institution as an undergraduate student if the applicant graduated with a grade point average in the top 10 percent of the student's high school graduating class in one of the two school years preceding the academic year for which the applicant is applying for admission and:

(1) the applicant graduated from a public or private high school in this state accredited by a generally recognized accrediting organization or from a high school operated by the United States Department of Defense;

(2) the applicant:

(A) successfully completed:

(i) at a public high school, the curriculum requirements established under Section 28.025 for the distinguished level of achievement under the foundation high school program; or

(ii) at a high school to which Section 28.025 does not apply, a curriculum that is equivalent in content and rigor to the distinguished level of achievement under the foundation high school program; or

(B) satisfied ACT's College Readiness Benchmarks on the ACT assessment applicable to the applicant or earned on the SAT assessment a score of at least 1,500 out of 2,400 or the
equivalent; and

(3) if the applicant graduated from a high school operated by the United States Department of Defense, the applicant is a Texas resident under Section 54.052 or is entitled to pay tuition fees at the rate provided for Texas residents under Section 54.241(d) for the term or semester to which admitted.

(a-1) Beginning with admissions for the 2011-2012 academic year, The University of Texas at Austin is not required to offer admission to applicants who qualify for automatic admission under Subsection (a) in excess of the number required to fill 75 percent of the university's enrollment capacity designated for first-time resident undergraduate students in an academic year. If the number of applicants who qualify for automatic admission to The University of Texas at Austin under Subsection (a) for an academic year exceeds 75 percent of the university's enrollment capacity designated for first-time resident undergraduate students for that academic year, the university may elect to offer admission to those applicants as provided by this subsection and not as otherwise required by Subsection (a). If the university elects to offer admission under this subsection, the university shall offer admission to those applicants by percentile rank according to high school graduating class standing based on grade point average, beginning with the top percentile rank, until the applicants qualified under Subsection (a) have been offered admission in the number estimated in good faith by the university as sufficient to fill 75 percent of the university's enrollment capacity designated for first-time resident undergraduate students, except that the university must offer admission to all applicants with the same percentile rank. After the applicants qualified for automatic admission under Subsection (a) have been offered admission under this subsection in the number estimated in good faith as sufficient to fill 75 percent of the designated enrollment capacity described by this subsection, the university shall consider any remaining applicants qualified for automatic admission under Subsection (a) in the same manner as other applicants for admission as first-time undergraduate students in accordance with Section 51.805.

(a-2) If the number of applicants who apply to a general
academic teaching institution during the current academic year for admission in the next academic year and who qualify for automatic admission to a general academic teaching institution under Subsection (a) exceeds 75 percent of the institution's enrollment capacity designated for first-time resident undergraduate students for that next academic year and the institution plans to offer admission under Subsection (a-1) during the next school year, the institution shall, in the manner prescribed by the Texas Education Agency and not later than September 15, provide to each school district, for dissemination of the information to high school junior-level students and their parents, notice of which percentile ranks of high school senior-level students who qualify for automatic admission under Subsection (a) are anticipated by the institution to be offered admission under Subsection (a-1) during the next school year.

(a-3) Repealed by Acts 2015, 84th Leg., R.S., Ch. 776 , Sec. 1, eff. June 17, 2015.

(a-4) If The University of Texas at Austin elects to offer admission to first-time resident undergraduate students under Subsection (a-1) for an academic year, the university must continue its practice of not considering an applicant's legacy status as a factor in the university's decisions relating to admissions for that academic year.

(a-5) A general academic teaching institution that offers admission to first-time resident undergraduate students under Subsection (a-1) shall require that a student admitted under that subsection complete a designated portion of not less than six semester credit hours of the student's coursework during evening hours or other low-demand hours as necessary to ensure the efficient use of the institution's available classrooms.

(a-6) Not later than December 31 of each academic year in which The University of Texas at Austin offers admission under Subsection (a-1), the university shall deliver a written report to the governor, the lieutenant governor, and speaker of the house of representatives regarding the university's progress in each of the following matters:

(1) increasing geographic diversity of the entering
freshman class;
(2) counseling and outreach efforts aimed at students qualified for automatic admission under this section;
(3) recruiting Texas residents who graduate from other institutions of higher education to the university's graduate and professional degree programs;
(4) recruiting students who are members of underrepresented demographic segments of the state's population; and
(5) assessing and improving the university's regional recruitment centers.

(b) An applicant who does not satisfy the curriculum requirements prescribed by Subsection (a)(2)(A)(i) or (ii) is considered to have satisfied those requirements if the student completed the portion of the distinguished level of achievement under the foundation high school program curriculum or of the curriculum equivalent in content and rigor, as applicable, that was available to the student but was unable to complete the remainder of the curriculum solely because courses necessary to complete the remainder were unavailable to the student at the appropriate times in the student's high school career as a result of course scheduling, lack of enrollment capacity, or another cause not within the student's control.

(c) To qualify for admission under this section, an applicant must:
(1) submit an application before the expiration of any application filing deadline established by the institution; and
(2) provide a high school transcript or diploma that satisfies the requirements of Subsection (d).

(d) For purposes of Subsection (c)(2), a student's official transcript or diploma must, not later than the end of the student's junior year, indicate:
(1) whether the student has satisfied or is on schedule to satisfy the requirements of Subsection (a)(2)(A)(i) or (ii), as applicable; or
(2) if Subsection (b) applies to the student, whether the student has completed the portion of the distinguished level of
achievement under the foundation high school program curriculum or of the curriculum equivalent in content and rigor, as applicable, that was available to the student.

(e) Each institution of higher education shall admit an applicant for admission to the institution as an undergraduate student if the applicant:

(1) is the child of a public servant listed in Section 615.003, Government Code, who was killed or sustained a fatal injury in the line of duty; and

(2) meets the minimum requirements, if any, established for purposes of this subsection by the governing board of the institution for high school or prior college-level grade point average and performance on standardized tests.

(f) After admitting an applicant under this section, the institution shall review the applicant's record and any other factor the institution considers appropriate to determine whether the applicant may require additional preparation for college-level work or would benefit from inclusion in a retention program. The institution may require a student so identified to enroll during the summer immediately after the student is admitted under this section to participate in appropriate enrichment courses and orientation programs. This section does not prohibit a student who is not determined to need additional preparation for college-level work from enrolling, if the student chooses, during the summer immediately after the student is admitted under this section.

(g) The Texas Higher Education Coordinating Board by rule shall develop and implement a program to increase and enhance the efforts of general academic teaching institutions in conducting outreach to academically high-performing high school seniors in this state who are likely to be eligible for automatic admission under Subsection (a) to provide to those students information and counseling regarding the operation of this section and other opportunities, including financial assistance, available to those students for success at public institutions of higher education in this state. Under the program, the coordinating board, after gathering information and recommendations from available sources and examining current outreach practices by institutions in this
state and in other states, shall prescribe best practices guidelines and standards to be used by general academic teaching institutions in conducting the student outreach described by this subsection.

(h) An institution that admits under this section an applicant qualified for automatic admission under Subsection (a) may admit the applicant for either the fall semester of the academic year for which the applicant applies or for the summer session preceding that fall semester, as determined by the institution.

(i) If a general academic teaching institution denies admission to an applicant for an academic year, in any letter or other communication the institution provides to the applicant notifying the applicant of that denial, the institution may not reference the provisions of this section, including using a description of a provision of this section such as the top 10 percent automatic admissions law, as a reason the institution is unable to offer admission to the applicant unless the number of applicants for admission to the institution for that academic year who qualify for automatic admission under Subsection (a) is sufficient to fill 100 percent of the institution's enrollment capacity designated for first-time resident undergraduate students.

(j) A general academic teaching institution that elects to offer admission under Subsection (a-1) for an academic year may not offer admission to first-time undergraduate students who are not residents of this state for that academic year in excess of the number required to fill 10 percent of the institution's enrollment capacity designated for first-time undergraduate students for that academic year.

(k) A general academic teaching institution may not offer admission under Subsection (a-1) for an academic year after the 2017-2018 academic year if, on the date of the institution's general deadline for applications for admission of first-time undergraduate students for that academic year:

(1) a final court order applicable to the institution prohibits the institution from considering an applicant's race or ethnicity as a factor in the institution's decisions relating to
first-time undergraduate admissions; or

(2) the institution's governing board by rule, policy, or other manner has provided that an applicant's race or ethnicity may not be considered as a factor in the institution's decisions relating to first-time undergraduate admissions for that academic year.

(1) The Texas Higher Education Coordinating Board shall publish an annual report on the impact of Subsection (a-1) on the state's goal of closing college access and achievement gaps under "Closing the Gaps," the state's master plan for higher education, with respect to students of an institution that offers admission under that subsection, disaggregated by race, ethnicity, socioeconomic status, and geographic region and by whether the high school from which the student graduated was a small school, as defined by the commissioner of education, or a public high school that is ranked among the lowest 20 percent of public high schools according to the percentage of each high school's graduates who enroll in a four-year institution, including a general academic teaching institution, in one of the two academic years following the year of the applicant's high school graduation. On request, a general academic teaching institution that offers admission under Subsection (a-1) shall provide the board with any information the board considers necessary for the completion of the report required by this subsection.

(m) The Texas Higher Education Coordinating Board and the commissioner of education shall jointly adopt rules to establish eligibility requirements for admission under this section as to curriculum requirements for high school graduation under Subsection (a)(2)(A) for students participating under the recommended or advanced high school program so that the admission of those students is not affected by their participation in the recommended or advanced high school program. This subsection expires September 1, 2020.

(1) graduated from high school not earlier than the fourth school year before the academic year for which the applicant seeks admission to the institution as a transfer student and:

(4) submits a completed application for admission as a transfer student before the expiration of any application filing deadline established by the institution.

(c) For purposes of this section, transfer semester credit hours from a different institution of higher education and semester credit hours earned by examination shall be included in determining whether the person completed the core curriculum at an institution of higher education.

(d) It is the responsibility of the applicant for admission under this section to:

(1) expressly and clearly claim in the application entitlement to admission under this section; and

(2) timely provide to the general academic teaching institution the documentation required by the institution to determine the student's entitlement to admission under this section.

Added by Acts 2009, 81st Leg., R.S., Ch. 1342 (S.B. 175), Sec. 2, eff. June 19, 2009.

Sec. 51.804. ADDITIONAL AUTOMATIC ADMISSIONS: SELECTED INSTITUTIONS. For each academic year, the governing board of each general academic teaching institution shall determine whether to adopt an admissions policy under which an applicant to the institution as a first-time freshman student, other than an applicant eligible for admission under Section 51.803, shall be admitted to the institution if the applicant:

(1) graduated from a public or private high school in this state accredited by a generally recognized accrediting organization with a grade point average in the top 25 percent of the applicant's high school graduating class; and

(2) satisfies the requirements of:

(A) Section 51.803(a)(2)(A) or 51.803(b), as applicable to the student, or Section 51.803(a)(2)(B); and

Sec. 51.8045. GRADUATES OF CERTAIN SPECIAL HIGH SCHOOL PROGRAMS. (a) For purposes of Sections 51.803 and 51.804 only, the governing body of a school district may treat a high school magnet program, academy, or other special program conducted by the school district at a high school attended by high school students who are not students of the special program as an independent high school with its own graduating class separate from the graduating class of other students attending the high school if:

(1) the special program was in operation in the 2000-2001 school year;

(2) the students of the special program are recruited, selected, or admitted from among the students residing in the attendance zones of not fewer than 10 regular high schools in the district, including the high school at which the special program is conducted;

(3) the students of the special program are selected or admitted independently of and identified as a student body separate from the other students of the high school;

(4) the students of the special program constitute not less than 35 percent of the total number of students in the graduating class at the high school at which the special program is conducted;

(5) the students of the special program have a curriculum different from that of the other students of the high school, even if students of the special program and other students of the high school attend some of the same classes; and

(6) a student graduating from the special program receives a high school diploma that includes a reference to the special program in describing the high school from which the student graduated.

(b) This section does not apply to the manner in which the members of a graduating class of the high school as a whole, including graduates of the special program, are ranked by grade

(b) The general academic teaching institution, after admitting students under Sections 51.803 and 51.804, shall admit other applicants for admission as undergraduate students. It is the intent of the legislature that all institutions of higher education pursue academic excellence by considering students' academic achievements in decisions related to admissions. Because of changing demographic trends, diversity, and population increases in the state, each general academic teaching institution shall also consider all of, any of, or a combination of the following socioeconomic indicators or factors in making first-time freshman admissions decisions:

(1) the applicant's academic record;

(2) the socioeconomic background of the applicant, including the percentage by which the applicant's family is above or below any recognized measure of poverty, the applicant's household income, and the applicant's parents' level of education;

(d) Not later than one year before the date that applications for admission are first considered under this section, each general academic teaching institution shall publish in the
institution's catalog a description of the factors considered by the institution in making admission decisions and shall make the information available to the public.

(e) This section does not apply to an institution that has an open enrollment policy, except that a student may apply to a general academic teaching institution that has an open enrollment policy only if the student satisfies the requirements described by Subsection (a).

(f) This section does not apply to Lamar State College--Orange or Lamar State College--Port Arthur as long as those institutions operate as two-year lower-division institutions of higher education.

(g) The Texas Higher Education Coordinating Board and the commissioner of education shall jointly adopt rules to establish eligibility requirements for admission under this section as to curriculum requirements for high school graduation under Subsection (a)(1) for students participating in the minimum, recommended, or advanced high school program so that the admission requirements for those students under this section are not more stringent than the admission requirements under this section for students participating in the foundation high school program. (b) The Texas Higher Education Coordinating Board, after consulting with the Texas Education Agency, by rule shall establish
standards for determining for purposes of this subchapter:

(1) whether a private high school is accredited by a generally recognized accrediting organization; and

(a) Each general academic teaching institution or medical and dental unit that offers admissions to undergraduate transfer students or admissions to a graduate, postgraduate, or professional program shall adopt a written admission policy applicable to those programs.

(b) Each general academic teaching institution shall adopt a written admission policy to promote the admission of undergraduate transfer students to the institution. (A) provide to prospective students information related to enrollment in an institution of higher education or a private or independent institution of higher education, including admissions, testing, and financial aid information;

(B) assist those prospective students in
completing applications and testing related to enrollment in those institutions, including admissions and financial aid applications, and fulfilling testing requirements; and

Sec. 51.842. ADMISSION AND SCHOLARSHIP FACTORS FOR GRADUATE AND PROFESSIONAL PROGRAMS. (a) A graduate or professional program of a general academic teaching institution or medical or dental unit may consider the following factors in making an admissions or scholarship decision for admissions into or competitive scholarships for the graduate or professional program:

1. an applicant's academic record as a high school student and undergraduate student;

2. the socioeconomic background of the applicant while the applicant attended elementary and secondary school and was an undergraduate student, including any change in that background;

3. whether the applicant would be the first generation of the applicant's family to attend or graduate from an undergraduate program or from a graduate or professional program;

If an applicant's performance on a standardized test is used in the admissions or competitive scholarship process, the applicant's performance must also be used to compare the applicant's test score with those of other applicants from similar socioeconomic backgrounds to the extent that those backgrounds can be properly determined and identified by the general academic teaching institution or medical and dental unit based on information provided in the institution's or unit's admissions or competitive scholarship process. This subsection does not apply to a standardized test used to measure the English language proficiency of a student who is a graduate of a foreign institution of higher education.

(c) A general academic teaching institution or medical and dental unit may not assign a specific weight to any one factor being considered in the admissions or competitive scholarship process for a graduate or professional program.

(d) Not later than one year before the date that applications for admissions and competitive scholarships are first considered for a graduate or professional program under this subchapter, each general academic teaching institution or medical
and dental unit shall publish in the catalog of the institution or unit a description of the factors to be considered by the institution or unit in making those admissions and competitive scholarship decisions and shall make the information available to the public.

(c) Imposition of a mandatory retirement age in violation of this section is an unlawful employment practice for purposes of Chapter 21, Labor Code. An individual aggrieved by the practice has the rights and remedies provided by that chapter, and the Commission on Human Rights has the same powers in regard to the complaint as any other complaint under that chapter.

Sec. 51.923. QUALIFICATIONS OF CERTAIN BUSINESS ENTITIES TO ENTER INTO CONTRACTS WITH AN INSTITUTION OF HIGHER EDUCATION. (a) In this section:

(1) "Business entity" means any entity recognized by law through which business is conducted, including a sole
proprietorship, partnership, firm, corporation, limited liability company, holding company, joint stock company, receivership, or trust.

(2) "Governing board" has the meaning assigned by Section 61.003.

(3) "Institution of higher education" has the meaning assigned by Section 61.003.

(4) "Nonprofit corporation" means any organization exempt from federal income tax under Section 501 of the Internal Revenue Code of 1986 that does not distribute any part of its income to any member, director, or officer.

(b) A nonprofit corporation is not disqualified from entering into a contract or other transaction with an institution of higher education even though one or more members of the governing board of the institution of higher education also serves as a member, director, officer, or employee of the nonprofit corporation.

(c) A business entity is not disqualified from entering into a contract or other transaction with an institution of higher education even though one or more members of the governing board of the institution of higher education have an interest in the business entity, subject to Subsection (d).

(d) An institution of higher education is not prohibited from entering into a contract or other transaction with a business entity in which a member of the governing board of the institution of higher education has an interest if the interest is not a substantial interest or, if the interest is a substantial interest, the board member discloses that interest in a meeting held in compliance with Chapter 551, Government Code, and refrains from voting on the contract or transaction requiring board approval. Any such contract or transaction requiring board approval must be approved by an affirmative majority of the board members voting on the contract or transaction.

(e) For purposes of this section, a member of a governing board has a substantial interest in a business entity if:

(1) the member owns 10 percent or more of the voting stock or shares of the business entity or owns either 10 percent or
more or $15,000 or more of the fair market value of the business entity;

(2) funds received by the member from the business entity exceed 10 percent of the member's gross income for the previous year;

(3) the member is an officer of the business entity or a member of the governing board of the business entity; or

(4) an individual related to the member in the first degree by consanguinity or affinity, as determined under Chapter 573, Government Code, has an interest in the business entity as described by Subdivision (1), (2), or (3).

(f) A violation of this section does not render an action of the governing board voidable unless the contract or transaction that was the subject of the action would not have been approved by the governing board without the vote of the member who violated this section.

Sec. 51.924. ASSESSMENT INSTRUMENTS USED FOR ADMISSION STANDARDS. Each company or organization that sponsors a college admissions testing program shall annually report to the Central Education Agency the performance in the testing program of students in this state and the program's state and national average standard score results. The company or organization shall report the performance of students by school district on the request of the Central Education Agency. In its determination of the admission of a student, an institution of higher education may not use the student's results on an assessment instrument administered by an organization that fails to comply with this section.

Sec. 51.9241. ADMISSION OF STUDENT WITH NONTRADITIONAL SECONDARY EDUCATION. (a) In this section:

(1) "Institution of higher education" has the meaning assigned by Section 61.003.

(2) "Nontraditional secondary education" means a course of study at the secondary school level in a nonaccredited private school setting, including a home school.

(b) Because the State of Texas considers successful completion of a nontraditional secondary education to be equivalent to graduation from a public high school, an institution of higher education must treat an applicant for admission to the institution as an undergraduate student who presents evidence that the person has successfully completed a nontraditional secondary education according to the same general standards, including specific standardized testing score requirements, as other applicants for undergraduate admission who have graduated from a public high school.

(c) An institution of higher education may not require an applicant for admission to the institution as an undergraduate student who presents evidence that the person has successfully completed a nontraditional secondary education to:

(1) obtain or submit evidence that the person has obtained a general education development certificate, certificate of high school equivalency, or other credentials equivalent to a public high school degree; or

(2) take an examination or comply with any other application or admission requirement not generally applicable to other applicants for undergraduate admission to the institution.

(d) If an institution of higher education in its undergraduate admission review process sorts applicants by high school graduating class rank, the institution shall place any applicant who presents evidence that the applicant has successfully completed a nontraditional secondary education that does not include a high school graduating class ranking at the average high school graduating class rank of undergraduate applicants to the
institution who have equivalent standardized testing scores as the applicant.

Sec. 51.9242. READMISSION OF STUDENT WHO WITHDRAWS TO PERFORM ACTIVE MILITARY SERVICE. (a) This section applies only to a student who withdraws from an institution of higher education to perform active military service as a member of the United States armed forces or the Texas National Guard, except that this section does not apply to a student who withdraws from an institution solely to perform one or more training exercises as a member of the Texas National Guard.

(b) For any academic term that begins after the date a student described by Subsection (a) is released from active military service but not later than the first anniversary of that date, the institution of higher education from which the student withdrew shall readmit the student, without requiring reapplication or charging a fee for readmission, if the student is otherwise eligible to register for classes at the institution. On readmission of the student under this subsection, the institution shall:

(1) provide to the student any financial assistance previously provided by the institution to the student before the student's withdrawal if the student meets current eligibility requirements for the assistance, other than any requirement directly affected by the student's service, such as continuous enrollment or another similar timing requirement; and

(2) allow the student the same academic status that the student had before the student's withdrawal, including any course credit awarded to the student by the institution.

(c) An institution of higher education may adopt rules requiring reasonable proof from a student of the fact and duration of the student's active military service.

Sec. 51.9245. ADMISSION OF PERSON RECEIVING ATHLETIC SCHOLARSHIP. (a) In this section, "general academic teaching institution" has the meaning assigned by Section 61.003.

(b) A general academic teaching institution may not admit an applicant who has been promised or granted an athletic scholarship, grant, or similar financial assistance conditioned on the student's participation in a sport, game, or other competition involving substantial physical ability or physical skill for or on a team organized or sponsored by the general academic teaching institution that is funded by state funds unless:

(1) if the general academic teaching institution requires a minimum high school grade point average as an admissions criterion for any entering freshman, that minimum applies to all freshmen being admitted; or

(2) for an applicant other than an entering freshman, the applicant's cumulative college-level grade point average is equal to or greater than the minimum cumulative college-level grade point average required for an undergraduate student to remain enrolled at the institution in the preceding academic year.

Sec. 51.925. RELIGIOUS HOLY DAYS. (a) An institution of higher education may not discriminate against or penalize in any way a member of the faculty of the institution who is absent from work for the observance of a religious holy day and gives proper notice of that absence if the customary and generally applicable educational practices of the institution permit general personal absence by members of the faculty. If personal absence is customarily penalized, the penalty for absence due to observance of a religious holy day under this section shall be forfeiture of one day's pay equivalent for each day of absence.

(b) In this section, "institution of higher education" has the meaning assigned by Subdivision (7) of Section 61.003 of this code, except that the term includes the Southwest Collegiate Institute for the Deaf and Texas State Technical Institute.
(c) In this section, "proper notice" means that the faculty member shall provide a listing of religious holy days to be observed during the semester to the chairman of the department and shall provide notice of such days in advance to all students whose class would be canceled due to the faculty member's absence. Notice herein shall be in writing and shall be personally delivered to the chairman of the department, receipt therefor being acknowledged and dated by the chairman, or by certified mail, return receipt requested, addressed to the chairman.

(d) In this section, "religious holy day" means a holy day observed by a religion whose places of worship are exempt from property taxation under Section 11.20, Tax Code.

Sec. 51.926. PAYROLL DEDUCTIONS FOR QUALIFIED RETIREMENT PLANS. (a) On written authorization from a football coach who is entitled to participate in a qualified football coaches plan, an institution of higher education may:

(1) enter into a salary reduction agreement under which the salary of the coach is reduced by the amount of contribution to the plan; and

(2) remit such contribution to the plan for credit to the coach's plan account.

(b) A person who participates in a qualified football coaches plan may also participate in another retirement plan or be a member of a retirement system established by law for employees of institutions of higher education.

(c) In this section:

(1) "Institution of higher education" has the meaning assigned by Section 61.003 of this code.

(2) "Qualified football coaches plan" means a retirement plan under Title 29 U.S.C. Section 1002(37)(F).

Sec. 51.927. ENERGY SAVINGS PERFORMANCE CONTRACTS. (a) In this section, "energy savings performance contract" means a contract for energy or water conservation measures to reduce energy or water consumption or operating costs of new or existing institutional facilities in which the estimated savings in utility costs resulting from the measures is guaranteed to offset the cost of the measures over a specified period. The term includes a contract for the installation or implementation of:

1. insulation of a building structure and systems within a building;
2. storm windows or doors, caulking or weather stripping, multiglazed windows or doors, heat-absorbing or heat-reflective glazed and coated window or door systems, or other window or door system modifications that reduce energy consumption;
3. automatic energy control systems, including computer software and technical data licenses;
4. heating, ventilating, or air conditioning system modifications or replacements that reduce energy or water consumption;
5. lighting fixtures that increase energy efficiency;
6. energy recovery systems;
7. electric systems improvements;
8. water-conserving fixtures, appliances, and equipment or the substitution of non-water-using fixtures, appliances, and equipment;
9. water-conserving landscape irrigation equipment;
10. landscaping measures that reduce watering demands and capture and hold applied water and rainfall, including:
   A. landscape contouring, including the use of berms, swales, and terraces; and
   B. the use of soil amendments that increase the water-holding capacity of the soil, including compost;
11. rainwater harvesting equipment and equipment to make use of water collected as part of a storm-water system installed for water quality control;
(12) equipment for recycling or reuse of water originating on the premises or from other sources, including treated municipal effluent;

(13) equipment needed to capture water from nonconventional, alternate sources, including air conditioning condensate or graywater, for nonpotable uses;

(14) metering equipment needed to segregate water use in order to identify water conservation opportunities or verify water savings; or

(15) other energy or water conservation-related improvements or equipment, including improvements or equipment related to renewable energy or nonconventional water sources or water reuse.

(b) The governing board of an institution of higher education may enter into an energy savings performance contract in accordance with this section.

(c) Each energy or water conservation measure must comply with current local, state, and federal construction, plumbing, and environmental codes and regulations. Notwithstanding Subsection (a), an energy savings performance contract may not include improvements or equipment that allow or cause water from any condensing, cooling, or industrial process or any system of nonpotable usage over which the public water supply system officials do not have sanitary control, to be returned to the potable water supply.

(d) The board may enter into energy savings performance contracts only with entities that are experienced in the design, implementation, and installation of the energy or water conservation measures addressed by the contract.

(e) Before entering into an energy savings performance contract, the board shall require the provider of the energy or water conservation measures to file with the board a payment and performance bond in accordance with Chapter 2253, Government Code. The board may also require a separate bond to cover the value of the guaranteed savings on the contract.

(f) The board may enter into an energy savings performance contract for a period of more than one year only if the board finds
that the amount the institution would spend on the energy or water conservation measures will not exceed the amount to be saved in energy, water, wastewater, and operating costs over 20 years from the date of installation. If the term of the contract exceeds one year, the institution's contractual obligation in any year during the term of the contract beginning after the final date of installation may not exceed the total energy, water, wastewater, and operating cost savings, including electrical, gas, water, wastewater, or other utility cost savings and operating cost savings resulting from the measures, as determined by the board in this subsection, divided by the number of years in the contract term beginning after the final date of installation. The board shall consider all costs of the energy or water conservation measures, including costs of design, engineering, installation, maintenance, repairs, and debt service.

(g) An energy savings performance contract may be financed:

(1) under a lease/purchase contract that has a term not to exceed 20 years from the final date of installation and that meets federal tax requirements for tax-free municipal leasing or long-term financing, including a lease/purchase contract under the master equipment lease purchase program administered by the Texas Public Finance Authority under Chapter 1232, Government Code;

(2) with the proceeds of bonds; or

(3) under a contract with the provider of the energy or water conservation measures that has a term not to exceed the lesser of 20 years from the final date of installation or the average useful life of the energy or water conservation or usage measures.

(g-1) Notwithstanding other law, the board may use any available money, other than money borrowed from this state, to pay the provider of the energy or water conservation measures under this section, and the board is not required to pay for such costs solely out of the savings realized by the institution of higher education under an energy savings performance contract. The board may contract with the provider to perform work that is related to, connected with, or otherwise ancillary to the measures identified in the scope of an energy savings performance contract.

(h) An energy savings performance contract shall contain
provisions requiring the provider of the energy or water conservation measures to guarantee the amount of the savings to be realized by the institution of higher education under the contract.

(i) An energy savings performance contract shall be let according to the procedures established for procuring certain professional services by Section 2254.004, Government Code. Notice of the request for qualifications shall be given in the manner provided by Section 2156.002, Government Code. The Texas Higher Education Coordinating Board, in consultation with the State Energy Conservation Office with regard to energy and water conservation measures, shall establish guidelines and an approval process for awarding energy savings performance contracts. The guidelines must require that the cost savings projected by an offeror be reviewed by a licensed professional engineer who has a minimum of three years of experience in energy calculation and review, is not an officer or employee of an offeror for the contract under review, and is not otherwise associated with the contract. In conducting the review, the engineer shall focus primarily on the proposed improvements from an engineering perspective, the methodology and calculations related to cost savings, increases in revenue, and, if applicable, efficiency or accuracy of metering equipment. An engineer who reviews a contract shall maintain the confidentiality of any proprietary information the engineer acquires while reviewing the contract. A contract is not required to be reviewed or approved by the State Energy Conservation Office. Sections 1001.053 and 1001.407, Occupations Code, apply to work performed under the contract.

(j) The legislature shall base an institution's appropriation for energy, water, and wastewater costs during a fiscal year on the sum of:

(1) the institution's estimated energy, water, and wastewater costs for that fiscal year; and

(2) if an energy savings performance contract is in effect, the institution's estimated net savings resulting from the contract during the contract term, divided by the number of years in the contract term.

(k) Chapter 2269, Government Code, does not apply to this
section.

(1) The guidelines established under Subsection (i) must require the Texas Higher Education Coordinating Board to:

(1) review any reports submitted to the board that measure and verify cost savings to an institution of higher education under an energy savings performance contract; and

(2) based on the reports, provide an analysis, on a periodic basis, of the cost savings under the energy savings performance contract to the governing board of the institution of higher education and the Legislative Budget Board until the governing board of the institution of higher education determines that the analysis is no longer required to accurately measure cost savings.

(3) is the most cost-effective, considering the factors described by Subdivisions (1) and (2).

(a) Except as provided by Subsection (b) of this section, a retail store that is owned or operated by an institution of higher education may not enter into a transaction for the sale or lease of goods or services in which the institution extends the credit of the state to the obligor.

(b) This section does not apply to an extension of credit to a student for the purchase of books or other educational supplies if the credit may be offset against undistributed grant or loan funds that are held by the institution for the student or that the
institution is entitled to receive on behalf of the student. The institution may not withhold grant or loan funds to require the student to purchase books or educational supplies from a store that it owns or operates.

(c) In this section, "institution of higher education" has the meaning assigned by Section 61.003 of this code.

(e) A student participating in the program from another state shall be exempt from the provisions of Section 51.306 of this code unless that student becomes a degree-seeking undergraduate student at a Texas public institution of higher education.

(f) A student may not participate in the program for more than one year.

An applicant who makes the election to apply under this section and is admitted as a student may not receive any course credit for courses undertaken 10 or more years prior to enrollment under this section.

(d) If a student who enrolls under this section completes a prescribed course of study, earns a baccalaureate degree, and applies for admission to a postgraduate or professional program offered by a public institution of higher education, the institution, in considering the applicant for admission into the postgraduate or professional program, shall consider only the grade point average of the applicant established by the course work completed after enrollment under this section, along with any other criteria the institution uses in evaluating applicants for admission into the postgraduate or professional program.

(e) Nothing in this section prohibits a public institution of higher education from applying standard admissions criteria generally applicable to persons seeking admission to the institution.
