To determine the period during which vacation time could have been used and the number of state or national holidays, the employee's vacation time is allocated over the workdays after the employee's separation and eight hours are added as a state or national holiday occurs during the period.

(b) For a state employee who on the date of separation is normally scheduled to work less than 40 hours a week, the number of hours that is to be added to the employee's accrued vacation time

for each state or national holiday is computed as provided by Subsection (a), but is to be proportionally reduced according to the lesser number of the employee's normally scheduled weekly work hours.

(c) For a state employee who is paid under this subchapter because the separation from state employment involves a move to a position in a state agency that does not accrue vacation time, no hours may be added to the employee's accrued vacation time for a state or national holiday which is scheduled to fall within the period after the date of separation and during which the employee could have used the time.
